PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained data attributes across multiple datasets for **analytical reporting**, ensuring data consistency for downstream consumption.
- Supported data quality initiatives by identifying and resolving discrepancies in relational databases, improving data integrity for business intelligence reports.
- Collaborated with internal teams to deliver business-focused solutions by translating data requirements into actionable insights and visualizations.
- Designed and implemented **Python** scripts for data manipulation and ETL processes, automating data extraction and transformation tasks.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes to meet service level agreements.
- Engineered **Java Spring Boot** REST APIs to facilitate data exchange between interconnected enterprise systems, supporting data integration efforts.

SKILLS

Data Science – machine learning, data attributes, data quality, analytical skills, problem-solving skills.

Programming & Scripting – Python, SQL, Java.

Databases – relational databases, PostgreSQL, MySQL, Oracle.

Reporting & Analytics – data manipulation, reporting, business-focused solutions, dashboards, data visualization.

Cloud & DevOps – AWS, Docker, Jenkins, Git.

Observability & Support – Splunk, Dynatrace, incident response, production support.

PROJECTS

Financial Operations Data Enhancement (HCL Technologies)

- Developed and maintained critical data attributes for a **payments operations dashboard**, integrating data from multiple transaction sources.
- Implemented automated **Python** scripts for data validation and reconciliation workflows, reducing manual effort by approximately **30%**.
- Collaborated with business analysts to define and deliver enhanced reporting metrics, directly supporting operational alerting for transaction flows.

ERP Systems Integration and Reporting (HCL Technologies)

- Supported integration efforts between ERP modules and other enterprise systems, ensuring seamless data flow via **REST APIs** and direct database connections.
- Designed and built **Power BI** dashboards to visualize key performance indicators from ERP data, providing stakeholders with actionable business insights.
- Managed change control processes for system configuration updates, coordinating UAT and post-go-live support across interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
