PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, contributing to the backend of a high-volume data processing platform, handling approximately **4,000 transactions per minute** during peak hours.
- Designed and implemented **RESTful APIs** using **Java Spring Boot** for inter-service communication, ensuring seamless data exchange between frontend and backend components.
- Managed and optimized **PostgreSQL** databases, including schema design, query tuning, and data migration for enterprise applications, supporting over **10 distinct operational workflows**.
- Engineered **Python** scripts for automating data ingestion and ETL processes, reducing manual data preparation time by an estimated **30%** for reporting teams.
- Deployed and managed containerized applications on **AWS EC2** instances using **Docker**, integrated with **Jenkins** for CI/CD pipelines, and monitored system health via **CloudWatch**.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment, participating in sprint planning, daily stand-ups, and retrospectives to ensure timely delivery of software features.

SKILLS

Backend Development – Java, Spring Boot, Node.js, REST APIs, Microservices

Frontend Development – React, TypeScript, React Native

Cloud Services – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, SQL

DevOps & CI/CD – Docker, Jenkins, Git

Scripting & Automation – Python

PROJECTS

Enterprise Data Ingestion and Processing Service

- Developed a **Java Spring Boot** microservice to ingest and process high-volume data streams, handling an average of **3,500 events per second**.
- Implemented data validation and transformation logic using **Python** scripts, ensuring data integrity before loading into the **PostgreSQL** data warehouse.
- Integrated the service with **AWS S3** for temporary storage and utilized **CloudWatch** for monitoring application performance and error rates.

Customer-Facing Feature Rollout Dashboard

- Built a **React**-based frontend application with **TypeScript** to display feature rollout status across different customer environments.
- Developed **RESTful APIs** in **Java Spring Boot** to serve feature deployment data from backend systems.
- Designed and implemented a notification system using **AWS Lambda** to alert stakeholders on critical deployment changes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
