PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **Level Two technical queries** from clients via the Helpdesk system, resolving a wide array of **hardware, software, and network issues**.
- Owned the **technical health** of assigned client networks, ensuring their stability and performance through proactive monitoring and maintenance.
- Configured and deployed end-user devices including **laptops, desktops, and printers**, and performed necessary **software installation, patching, and updates**.
- Documented solutions and contributed to the internal **knowledge base**, maintaining accurate records of client IT environments and configurations.
- Conducted regular **system checks and updates** to ensure security and operational uptime, and supported **disaster recovery readiness** through routine testing.
- Collaborated with peers and senior staff on **onboarding projects, system deployments, and data migrations**, ensuring timely delivery of project milestones.

SKILLS

Support & Troubleshooting – Level Two Support, Hardware, Software, Network Issues, Incident Management, Escalation, Client Communication, IT Policies, Best Practices

System Administration – Device Deployment, Laptop, Desktop, Printer Configuration, Software Installation, Patching, Updates, System Checks, Operational Uptime, Disaster Recovery

Client Management – Primary Point of Contact, Client Stakeholders, Account Reviews, Feedback Gathering, IT Environments, Configurations, Requirements Gathering

Documentation & Processes – Helpdesk System, Knowledge Base, Process Refinement, Workflow Enhancement, Training Guides, Best Practices

Cloud & Infrastructure – Cloud First Solutions, Managed Services, AWS (EC2/S3/Lambda/CloudWatch), Linux, Docker

Development & Automation – Python Scripting, Java Spring Boot, REST APIs, SQL (PostgreSQL, MySQL, Oracle), CI/CD, Jenkins, Git

PROJECTS

Client Environment Stabilization and Upgrade (HCL Technologies)

- Assessed and stabilized the IT infrastructure for a key enterprise client, addressing critical performance bottlenecks identified through **Splunk and Dynatrace monitoring**.
- Executed a phased rollout of **software updates and security patches** across over 150 end-user devices and 20 servers, reducing critical vulnerabilities by **45%**.
- Developed and documented new **troubleshooting runbooks** for common hardware and software issues, which were adopted by the Level One support team to improve first-call resolution rates.

Managed Print Services Integration (HCL Technologies)

- Integrated and configured managed print devices for multiple SME clients, including detailed **IP address management** and network connectivity troubleshooting.
- Collaborated with managed print vendors to streamline the deployment process, reducing average **setup time per device by approximately 18%**.
- Created a standardized **configuration template** for common printer models, ensuring consistency and simplifying future deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
