PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided day-to-day application support for core business systems, resolving an average of **15-20 incidents** per week impacting financial operations and ERP workflows.
- Managed and monitored critical system processes and scheduled activities, ensuring **~98% completion rate** for daily batch jobs related to transaction processing and reconciliation.
- Assisted with system upgrades and patching lifecycles for enterprise applications, including execution of test plans and coordination of **user acceptance testing** with business analysts.
- Served as a primary liaison between third-party software vendors and internal business users, translating complex technical issues into clear, non-technical language for **cross-functional teams**.
- Developed and maintained system documentation, support materials, and procedural guides, standardizing troubleshooting steps for common hardware and software issues across **5+ key business applications**.
- Monitored incident and service request queues using **Jira and ITSM tools**, tracking and managing SLAs to ensure timely resolution of user-reported problems and escalating as needed.

SKILLS

Application Support – Incident Management, Service Request Management, SLA Tracking, Root Cause Analysis, Continuous Service Improvement

Database Tools – SQL Developer, PostgreSQL, MySQL, Oracle, Data Modelling, DAX, Power Query

Cloud & Virtualization – Azure Virtual Desktop, Citrix, AWS (EC2, S3, Lambda, CloudWatch), Docker

Operating Systems & Networking – Linux, Shell Scripting, Cron Jobs, Network Connectivity Troubleshooting

Hardware Support – Desktop/Laptop Configuration, Imaging, Deployment, Peripheral Support, Asset Tracking

Automation & Scripting – Python, Power Automate, ETL, Scheduled Reporting

ERP & Business Systems – ERP Support, Dispatch Systems Exposure, System Upgrades, Change Management

PROJECTS

Financial Services Operations Dashboard Enhancement

- Enhanced a payments operations dashboard by developing new Python scripts to automate data ingestion and transformation, improving report generation speed by **~30%**.
- Implemented real-time transaction monitoring alerts using Splunk queries, reducing the detection time for failed payment messages from **4 hours to under 15 minutes**.
- Collaborated with operations teams to refine reconciliation workflows and audit trail logging, ensuring compliance with internal control frameworks and GDPR requirements.

Automated Hardware Deployment Workflow

- Designed and built an automated workflow for laptop and desktop imaging and configuration using **Azure Virtual Desktop** and related scripting, reducing new starter onboarding time by **~40%**.
- Developed comprehensive documentation and guides for hardware lifecycle management, covering asset tracking, refresh processes, and end-user support procedures.
- Integrated asset tracking with a central IT database, improving accuracy of hardware inventory by approximately **15%** and streamlining refresh planning.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
