PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided day-to-day support for critical business applications, including **Java Spring Boot** services and enterprise systems, ensuring operational continuity for a financial-services client.
- Managed incident and service request queues, tracking and resolving issues to meet defined **SLAs**, contributing to a **15% reduction** in average resolution time for P1 incidents.
- Developed and maintained system documentation and support materials, including **runbooks** and troubleshooting guides, streamlining onboarding for new support team members.
- Executed and monitored critical system processes and scheduled activities, including automated **Python scripts** for data validation and reporting, ensuring data integrity across interconnected systems.
- Assisted with system upgrades and patching lifecycles, performing testing and coordinating user acceptance testing (UAT) for significant application updates.
- Acted as a liaison between third-party vendors and business users, translating technical challenges into clear, non-technical language to facilitate issue resolution.

SKILLS

Application Support – Incident Management, Service Request Management, SLA Tracking, Root Cause Analysis, End-User Support, Troubleshooting, System Upgrades, Patching, User Acceptance Testing (UAT)

Database Tools – SQL Developer, PostgreSQL, MySQL, Oracle, SQL Querying, Data Validation

Cloud & Infrastructure – Azure Virtual Desktop, Citrix, AWS (EC2, S3, Lambda, CloudWatch), Linux, Networking Fundamentals

Automation & Scripting – Python, Power Automate, Shell Scripting, Cron Jobs

Development & Systems – Java Spring Boot, REST APIs, .NET, Docker, Jenkins, Git, Jira, Confluence, ERP Systems, Dispatch Systems

Reporting & Documentation – KPI Reports, Dashboards, System Documentation, Support Materials, Change Management

PROJECTS

Production Support Automation for Financial Operations

- Automated routine production support tasks for a **payments operations dashboard** using **Python scripting**, reducing manual intervention by approximately **30%** across the support team's daily workload.
- Developed detailed **runbooks** and troubleshooting guides for common P1/P2 incidents, which were adopted by the operations team and reduced incident triage time by an average of **18 minutes**.
- Managed and monitored critical system processes and scheduled jobs within a **Linux** environment, ensuring the reliable execution of data ingestion and reconciliation workflows.

ERP System Integration & UAT Coordination

- Supported integration efforts between enterprise business systems and an **ERP** module, facilitating data flows via **REST APIs** and direct database connections.
- Coordinated and supported User Acceptance Testing (UAT) for system configuration updates and new feature rollouts, gathering feedback from business analysts and end-users.
- Documented system changes and configurations as part of the **change-control management** process, ensuring adherence to established IT governance procedures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
