PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Served as the primary point of contact for IT helpdesk queries, resolving approximately **40-5 tickets daily** for core business applications and conducting independent problem-solving for system issues.
- Configured and maintained critical **ERP and Membership platforms**, ensuring data integrity and stability while aligning system performance with business requirements.
- Assessed and documented system configuration changes, managing the end-to-end **change control process** from preparation for approval to maintaining accurate implementation records.
- Performed first-line testing of **system upgrades and patches**, coordinating comprehensive User Acceptance Testing (UAT) with business stakeholders to ensure successful deployments.
- Developed and maintained detailed system documentation, including **process maps and user guides**, to facilitate knowledge capture and accessibility for a team of 15 users.
- Produced ad hoc reports and assisted in the development of **Power BI dashboards**, translating business and leadership requirements into actionable data outputs.

SKILLS

Application Support – IT Helpdesk, Incident Management, SLA Management, Problem-Solving, Change Control, UAT Coordination

Core Business Systems – ERP Systems, Membership Platforms, System Configuration, Data Integrity, System Stability

Business Intelligence & Reporting – Power BI, Dashboards, Ad Hoc Reporting, Data Analysis

Data Management & Compliance – Data Standards, GDPR, Data Protection Acts, Database Maintenance

Development & Integration – Java Spring Boot, REST APIs, Python Scripting, SQL (PostgreSQL, MySQL, Oracle)

Cloud & Infrastructure – AWS (EC2, S3, Lambda), Docker, Linux

DevOps & Collaboration – Jenkins, Git, Jira, Confluence

PROJECTS

ERP System Enhancement Project (HCL Technologies)

- Collaborated with business analysts to gather and document requirements for enhancing core **ERP functionalities**, focusing on improving reconciliation workflows.
- Configured and tested system changes within a **PostgreSQL database** environment, ensuring data consistency across integrated modules.
- Developed user guides and conducted training sessions for a team of **10 operations staff** on new ERP features, improving system adoption by approximately 30%.

Operational Reporting Dashboard Development (HCL Technologies)

- Designed and implemented interactive **Power BI dashboards** to monitor key operational metrics for a financial-services client, consolidating data from multiple sources.
- Wrote SQL queries across **MySQL and Oracle databases** to extract and transform data for reporting, reducing manual data compilation time by 15 hours per week.
- Supported the deployment of dashboards to business stakeholders, gathering feedback for iterative improvements and ensuring alignment with reporting needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
