PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed and validated large datasets using **web research** and processing applications, identifying high-level data trends and bringing issues to resolution.
- Performed root cause analysis on spotted issues within business applications and escalated them to the appropriate technical teams, improving issue resolution time by **15%**.
- Developed Python scripts for data processing and scheduled reporting, automating tasks that previously required manual intervention for an **enterprise reporting workflow**.
- Contributed to feature development and bug fixes for existing **Java Spring Boot** REST APIs, ensuring seamless integration with interconnected systems.
- Conducted software usability testing on new internal tools, providing detailed feedback that informed development priorities and resulted in a **20% reduction** in reported bugs post-launch.
- Managed change-control processes for system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support for **cross-system integrations**.

SKILLS

Data Analysis & Research – Web Research, Data Validation, Trend Analysis, Root Cause Analysis, Critical Thinking, Large Datasets, Pattern Identification

Programming & Scripting – Python, Java, Spring Boot, REST APIs

Databases & Data Handling – SQL, PostgreSQL, MySQL, Oracle, Data Processing, ETL, Data Warehousing

Tools & Technologies – Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn, Jira, Confluence, Git, Jenkins, Docker, AWS (EC2, S3, Lambda, CloudWatch)

Operating Systems & Infrastructure – Linux, Shell Scripting, Cron Jobs, Hybrid Cloud Environments

Communication & Collaboration – English Communication, Cross-functional Teams, Stakeholder Interaction, Independent Work

PROJECTS

Enterprise Business Systems Data Validation Platform

- Developed a Python-based application to automate data validation checks against enterprise business systems, reducing manual validation effort by **40%**.
- Integrated with **PostgreSQL** and **Oracle** databases to extract and compare large volumes of transactional data, identifying discrepancies for reconciliation.
- Designed and implemented a user interface for business analysts to define validation rules and review exception reports, improving data quality reporting.

Operational Dashboard for Transaction Monitoring

- Built interactive dashboards using **Power BI** to visualize key operational metrics for transaction processing, enabling business stakeholders to monitor system health.
- Connected to multiple data sources via **Power Query** and performed data modeling to create a unified view of transaction flows, supporting analysis of performance trends.
- Authored **DAX** measures to calculate critical KPIs, providing insights into processing times and identifying potential bottlenecks for **~1,500 daily transactions**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
