PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the **procurement of parts** to support **line and heavy maintenance** operations for a fleet of over 500 aircraft.
- Monitored **repair facilities** and liaised with vendors to ensure timely and efficient turnaround of critical aircraft components, supporting **base maintenance** activities.
- Supported **modification programs** by coordinating spare parts availability, ensuring seamless integration with engineering and technical services teams.
- Arranged **freight movements** for aircraft parts and tooling within the internal network and from external vendors, optimizing logistics for 30+ aircraft bases.
- Liaised with **Engineering and Technical Services** on purchasing and warranty matters, contributing to cost control initiatives for an expanding fleet.
- Supported the **Maintenance Control Operation** by providing timely information on parts availability and repair status, facilitating efficient operational decision-making.

SKILLS

Supply Chain & Logistics – Procurement, Repair Control, Warranty Control, Vendor Management, Freight Movement, Parts & Tooling Management

Aircraft Maintenance – Line Maintenance, Heavy Maintenance, Base Maintenance, Modification Programs

Engineering Support – Technical Services Liaison, Purchasing Liaison, Engineering Liaison

Business & Operations – Cost Control, Operational Support, Multi-tasking, Initiative, Communication, Negotiation

Software & Tools – Microsoft Word, Microsoft Excel, Jira, Confluence

PROJECTS

Aircraft Parts Procurement & Logistics Optimization (HCL Technologies)

- Developed Python scripts to automate the tracking of critical aircraft part inventory, reducing manual data entry by an estimated 30% for the operations team.
- Assisted in the analysis of vendor performance metrics, identifying opportunities for improved lead times and cost savings on high-volume component orders.
- Created a consolidated view of repair status and estimated return-to-service dates for 150+ active repair orders, improving visibility for maintenance planning.

Maintenance Operations Support Dashboard (HCL Technologies)

- Designed and implemented a **Power BI dashboard** to provide real-time insights into repair turnaround times and parts availability for a fleet operations team.
- Integrated data from multiple sources including vendor portals and internal tracking systems using **Power Query**, consolidating information for clearer analysis.
- Developed **DAX measures** to quantify repair efficiency and identify bottlenecks, supporting the team's efforts to meet tight maintenance timelines.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
