PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal services, handling approximately **500 requests per minute** and supporting cross-system integrations.
- Automated data extraction and transformation tasks using **Python scripting**, reducing manual reporting effort by an estimated **15 hours per week** for the finance operations team.
- Managed production incidents for enterprise applications on **AWS**, diagnosing issues using **Splunk** and **Dynatrace**, and ensuring adherence to service level agreements.
- Collaborated with business analysts and operations teams to gather requirements for enhancements to a **financial-services operations dashboard**, facilitating UAT and post-implementation triage.
- Designed and implemented database schema changes and performed data validation queries across **PostgreSQL** and **MySQL** databases for enterprise business systems.
- Contributed to CI/CD pipelines using **Jenkins** and **Git** for automated builds and deployments, participating in code reviews for feature development.

SKILLS

Core Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Observability & Monitoring – Splunk, Dynatrace

Methodologies – Agile, Scrum

PROJECTS

Automated Financial Reporting System (HCL Technologies)

- Developed a Python-based ETL pipeline to extract, transform, and load financial transaction data from disparate sources into a central reporting database, processing over **100,000 records daily**.
- Built automated daily and weekly reports using **SQL** and **Python**, delivering key operational metrics to business stakeholders and reducing manual report generation time by approximately **20 hours per month**.
- Integrated the reporting system with an existing **Java Spring Boot** application via REST APIs, ensuring seamless data flow and enabling real-time dashboard updates.

Interactive Sales Performance Dashboard (MSc Project)

- Designed and developed an interactive dashboard in **Power BI** to visualize sales performance metrics, including revenue, deal closure rates, and customer acquisition data, for an educational technology client.
- Created complex **DAX** measures and performed data modeling within Power BI to derive actionable insights, presenting findings and trends to project stakeholders.
- Utilized **Power Query** to clean and transform raw sales data, preparing it for efficient analysis and visualization within the Power BI environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
