PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and evolved automation as an internal product to support the **software delivery lifecycle**, reducing manual effort and operational risk through software.
- Identified and replaced manual, error-prone workflows with automation, improving the **reliability** and consistency of CI/CD pipelines and supporting tooling.
- Collaborated with application engineers to improve delivery safety, resilience, and operational excellence by embedding **security and quality checks** into automated workflows.
- Contributed to standards and reusable patterns for build, test, deployment, and rollback processes, enhancing the **developer experience** through better tooling and documentation.
- Engineered **Python scripts** for automating data ingestion and ETL processes, processing approximately **3,500 events per second** during peak hours.
- Managed production support and incident response for enterprise applications using **Splunk and Dynatrace**, adhering to strict SLAs and ensuring system availability.

SKILLS

CI/CD & Automation – Jenkins, GitHub Actions, GitLab CI, Python, Bash Scripting, Docker, Git

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Kubernetes, ECS

Development & Languages – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

Methodologies & Tools – Agile, Scrum, Jira, Confluence

PROJECTS

Internal Developer Tooling Platform (HCL Technologies)

- Developed a suite of **Python-based automation scripts** to streamline common development tasks, including environment setup and dependency management.
- Integrated **Jenkins pipelines** to automate build, test, and deployment processes for internal services, reducing manual deployment time by an average of **45%**.
- Created self-service tooling that improved developer productivity and reduced reliance on infrastructure teams for routine operational tasks.

Automated Data Pipeline for Operations Dashboard (HCL Technologies)

- Engineered **Python and SQL ETL processes** to aggregate and transform data from various sources for a financial-services operations dashboard.
- Implemented automated data validation checks and scheduled reporting mechanisms, ensuring data accuracy for **transaction monitoring workflows**.
- Designed and deployed data ingestion pipelines on **AWS Lambda**, handling a consistent load of approximately **3,200 records daily**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
