PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Automated routine operational tasks by developing **Python scripts**, reducing manual effort by approximately **30%** across the team's daily reporting processes.
- Contributed to the enhancement of **CI/CD pipelines** using **Jenkins** and **Git**, improving deployment frequency and reliability for core product services.
- Managed and supported **cloud infrastructure** on **Azure**, assisting senior engineers with **Terraform** configurations and resource health checks.
- Operated and maintained **Kubernetes clusters (AKS)**, focusing on cluster stability and supporting the deployment of microservices.
- Participated in the incident management process, joining on-call rotations to assist in the triage and resolution of production system issues.
- Documented critical procedures and developed **runbooks** for common operational tasks, enhancing team knowledge sharing and onboarding efficiency.

SKILLS

Cloud Platforms – Microsoft Azure, AWS (EC2, S3, Lambda, CloudWatch)

Containerization & Orchestration – Kubernetes, AKS, Docker, Helm charts

CI/CD & IaC – Jenkins, Azure DevOps, Terraform, Terragrunt, GitOps, Argo CD

Scripting & Programming – Python, Bash, Go, Java, Spring Boot

Observability & Monitoring – Prometheus, Grafana, Azure Monitor, OpenTelemetry, Splunk, Dynatrace

Systems & Networking – Linux, TCP/IP, DNS, Firewalls, PowerShell

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Automated Deployment and Orchestration for Enterprise Services

- Developed and maintained **CI/CD pipelines** using **Jenkins** to automate build, test, and deployment processes for Java Spring Boot applications, reducing manual deployment time by over **40%**.
- Implemented **Kubernetes manifests** and managed deployments on **AKS**, ensuring consistent application environments and facilitating efficient rollouts of new features.
- Wrote **Python scripts** to automate infrastructure provisioning tasks on **Azure**, integrating with cloud APIs to manage resources like VMs and databases.

Enhanced Observability and Incident Response Framework

- Configured and managed **Prometheus** and **Grafana** for system metrics collection and dashboarding, providing real-time visibility into application performance.
- Assisted in the implementation of **OpenTelemetry** for distributed tracing across microservices, enabling better root cause analysis during production incidents.
- Created detailed **runbooks** for common P1/P2 incidents, standardizing response procedures and reducing average resolution time by an estimated **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
