PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Automated routine operational tasks by developing **Python scripts** for data processing and scheduled reporting, reducing manual effort by an estimated **15%**.
- Managed and enhanced **CI/CD pipelines** using Jenkins and Git for seamless code integration and deployment across multiple projects.
- Supported cloud infrastructure on **AWS**, configuring **EC2** instances, managing **S3** buckets, and deploying serverless functions via **Lambda**.
- Contributed to feature development and bug resolution in existing **Java Spring Boot** microservices, focusing on REST API enhancements.
- Participated in production support for enterprise applications, utilizing **Splunk** and **Dynatrace** for monitoring and resolving P1/P2 incidents within defined SLAs.
- Collaborated with cross-functional teams, including operations and business analysts, to gather requirements and support User Acceptance Testing for system enhancements.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Microsoft Azure

Containerization & Orchestration – Docker, Kubernetes (AKS)

CI/CD & Version Control – Jenkins, Git, Azure DevOps

Infrastructure as Code – Terraform, Helm charts, Bicep/ARM

Observability – Prometheus, Grafana, Azure Monitor, OpenTelemetry, Splunk, Dynatrace

Programming & Scripting – Python, Bash, Java, Spring Boot, Go

Databases & Data Processing – PostgreSQL, MySQL, Oracle, SQL, Power Query

PROJECTS

Automated Deployment and Monitoring System

- Developed Python scripts to automate deployment tasks and integrate with Jenkins for continuous integration, reducing manual deployment time by approximately **20%**.
- Configured monitoring and alerting using **Prometheus** and **Grafana** to track application health and resource utilization across containerized environments.
- Implemented logging aggregation for application events using **Splunk**, enabling faster issue triage and root cause analysis for production incidents.

Cloud Infrastructure Automation with Terraform

- Wrote **Terraform** modules to provision and manage **Azure** infrastructure, including virtual networks, Kubernetes clusters (AKS), and associated resources.
- Established GitOps workflows using **Argo CD** for declarative, auditable deployments to Kubernetes, ensuring consistency across development and production environments.
- Collaborated with senior engineers to maintain infrastructure health checks and assist with cost monitoring for cloud resources.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
