PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Power BI dashboards**, incorporating complex **DAX measures** to visualize key performance indicators for business-wide consumption, leading to a **15% improvement** in report accessibility.
- Enhanced the **centralised data lake** infrastructure, implementing schema evolution strategies and optimizing data ingestion pipelines to support complex analytical queries and Management Information (MI) reporting.
- Served as a key **Subject Matter Expert (SME)** for data-related initiatives, collaborating with cross-functional teams to define data requirements and ensure alignment with business objectives.
- Engineered **Python scripts** for automating data extraction, transformation, and loading (ETL) processes from disparate sources into the data lake, reducing manual effort by approximately **20 hours per week**.
- Managed and maintained **relational databases** (PostgreSQL, MySQL) including schema updates, performance tuning, and data validation to ensure data integrity for analytical reporting.
- Contributed to the development of **REST APIs** using Java Spring Boot for seamless data integration between enterprise systems and the data analytics platform.

SKILLS

BI & Data Visualization – Power BI, DAX, Power Query, Tableau, Data Modelling, Business Intelligence.

Data Engineering & Architecture – Data Lake, Data Architecture, ETL, SQL, PostgreSQL, MySQL, Oracle, Python, Pandas, NumPy.

Programming & Backend – Java, Spring Boot, REST APIs, Python, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

DevOps & CI/CD – Jenkins, Git, Code Reviews.

Project Management & Collaboration – Jira, Confluence, Agile, Scrum, Stakeholder Management, Communication.

PROJECTS

Enterprise Data Lake Enhancement and Reporting Platform

- Architected and implemented improvements to a **centralised data lake**, focusing on schema management and optimized data ingestion for enhanced analytics and MI.
- Developed a suite of **12 interactive Power BI dashboards** to provide real-time insights into operational performance, utilized by over 50 business stakeholders.
- Authored **Python ETL scripts** to integrate data from legacy systems, ensuring data quality and consistency across the analytics environment.

Customer Operations Analytics Dashboard

- Designed and built a **Power BI dashboard** for tracking key customer operations metrics, utilizing **DAX measures** for complex calculations and trend analysis.
- Performed **data modelling** and utilized **Power Query** to clean and transform raw data from multiple sources, enabling accurate reporting.
- Collaborated with business analysts to gather requirements and deliver actionable insights through clear data visualizations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
