PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed daily cash square-up and confirmed **Treasury payments**, executing internal funding and derivatives trades with precision and adherence to cut-off times.
- Administered and reconciled vendor ledger details, resolving business unit and vendor queries to ensure accurate **accounts payable** tracking.
- Developed Python scripts to automate the generation of monthly liquidity and risk reports, reducing manual effort by an estimated **15 hours** per cycle.
- Collaborated with operations teams to refine payment processes, mapping existing workflows and identifying bottlenecks for cross-functional improvement initiatives.
- Supported corporate finance deal teams by providing data extracts and analysis for **third-party and shareholder debt facilities**, ensuring timely access to critical information.
- Contributed to the administration of the **Treasury Management System**, including deal capture, payment processing, and bank account structure management.

SKILLS

Finance & Treasury – Treasury Management System, Cash Management, Liquidity Management, Interest Rate Risk Management, Funding Initiatives, Vendor Payments, Accounts Payable, Derivatives

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, R, RStudio, Python (pandas, NumPy), SQL, Data Warehousing, Statistical Analysis

Software Engineering & Support – Java, Spring Boot, Python, REST APIs, SQL (PostgreSQL, MySQL, Oracle), AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins

Operations & Support – Production Support, Incident Response, SLA Management, Change Management, Jira, Confluence, Splunk, Dynatrace

Business Acumen – Agile/Scrum, Requirements Gathering, UAT Support, Cross-functional Collaboration, Business Analysis, Regulatory Awareness (GDPR)

PROJECTS

Automated Financial Reporting Suite (HCL Technologies)

- Engineered a suite of Python scripts to automate the generation of daily and monthly financial operational reports, including transaction summaries and reconciliation variances.
- Developed interactive dashboards using **Power BI** to visualize key performance indicators and trends derived from the reporting suite, enabling faster stakeholder decision-making.
- Integrated data extraction from PostgreSQL and Oracle databases, transforming raw transaction data into structured formats suitable for analysis and reporting.

Payment Reconciliation Workflow Enhancement (MSc Project)

- Designed and implemented a data reconciliation workflow using Python and SQL to identify discrepancies between internal ledgers and external bank statements for a simulated financial services client.
- Built **Power BI dashboards** to present reconciliation results, highlighting matched transactions, exceptions, and aging of unmatched items.
- Applied statistical methods to analyze patterns in reconciliation failures, providing insights for potential root cause analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
