PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **IT Helpdesk support** for Microsoft Office platforms and **CRM/Agresso**, resolving approximately **45 tickets weekly** related to user access and application configuration.
- Assisted in the **roll-out of conference emails** to a user base of over 1,000 volunteers, coordinating communication and troubleshooting delivery issues.
- Supported the transition from in-house data storage to **Cloud-based Office 365 SharePoint**, migrating user data and configuring access permissions.
- Collaborated with the IT Team on **technical issue resolution** for multiple platforms including **CRM** and finance systems, documenting findings and solutions.
- Participated in a major **IT infrastructure project**, contributing to planning and execution phases for system upgrades and new implementations.
- Developed and maintained **technical documentation** for IT processes and user guides, ensuring clarity for both technical staff and end-users.

SKILLS

IT Support – IT Helpdesk, Technical Support, Issue Resolution, Troubleshooting, Ticketing Systems, Incident Response

Cloud Platforms – Office 365, SharePoint, Cloud Migration

Business Applications – CRM, Agresso, Microsoft Office Suite

Development & Scripting – Python, Java, SQL

Infrastructure & Operations – Linux, Data Storage Servers, Disaster Recovery, IT Project Support

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Git

PROJECTS

IT Helpdesk Service Enhancement (HCL Technologies)

- Streamlined the IT Helpdesk process for a financial services client by developing **Python scripts** to automate ticket categorization and initial response for common issues, reducing average response time by **18%**.
- Created comprehensive **user guides and troubleshooting documentation** for the internal payments operations dashboard, improving self-service resolution rates for operational staff by an estimated **25%**.
- Assisted in triaging and resolving P1/P2 incidents impacting the production environment, ensuring adherence to strict SLAs and maintaining system availability for core financial operations.

Data Analytics & Reporting Dashboard (MSc Applied Project)

- Designed and implemented an interactive **Power BI dashboard** for a simulated business analytics scenario, consolidating data from multiple sources via **Power Query**.
- Developed complex **DAX measures** to calculate key performance indicators and performed data modelling to support analytical insights for business stakeholders.
- Presented findings and dashboard functionality to academic supervisors, demonstrating clear communication of technical results to a non-technical audience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
