PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Engineered **Java Spring Boot** microservices to build core banking platform APIs, handling **transaction processing** and client data management in a regulated environment.
- Developed **React Native** based UI flows for a greenfield platform, focusing on client experience and integrating with backend APIs.
- Managed and optimized **AWS** services including EC2 and S3 for cloud-native application deployment and operational reliability.
- Implemented automated testing strategies and contributed to reliable release practices, reducing pre-production defects by **15%**.
- Acted as a technical point of contact for **payments operations**, responding to P1/P2 incidents and ensuring adherence to strict SLAs.
- Wrote **Python** scripts to automate data validation and ETL processes for financial reporting, improving data accuracy by an estimated **8%**.

SKILLS

Backend Development – Java, Spring Boot, RESTful APIs, Microservices, Python, Flask, FastAPI

Frontend Development – React Native, React, Angular

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle, NoSQL, DynamoDB

Operations & Monitoring – Splunk, Dynatrace, Observability, Incident Response, Change Management

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy

Domain Knowledge – Payments Processing, Fintech, Regulated Environments, ERP Systems

PROJECTS

Greenfield Banking Platform Microservices (HCL Technologies)

- Designed and developed **Java Spring Boot** microservices for a core banking platform, implementing RESTful APIs for client account management and transaction initiation.
- Integrated services with **PostgreSQL** databases, ensuring data consistency and implementing schema changes for new feature requirements.
- Participated in daily Scrum ceremonies, code reviews, and CI/CD pipeline management using **Jenkins** and **Git** for a 7-person engineering team.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced an existing **payments operations** dashboard by developing new **Python** data pipelines for near real-time transaction monitoring and reconciliation workflows.
- Created interactive visualizations and reports in **Power BI** for operations teams, enabling faster identification of processing anomalies and reducing manual reporting time by approximately **20%**.
- Provided production support, troubleshooting issues on the dashboard and collaborating with business analysts to refine alerting mechanisms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
