PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **application support** to enterprise customers, resolving an average of **15 critical incidents** per month within SLA targets by analyzing system logs via **Splunk** and **Dynatrace**.
- Developed **Python scripts** to automate data extraction and transformation for **scheduled reporting**, reducing manual effort by approximately **8 hours** per week for the operations team.
- Managed **SQL Server** database changes and performed data validation for **system integrations**, ensuring data integrity across interconnected business platforms.
- Contributed to **.NET development** tasks, including debugging and implementing minor enhancements on existing applications, working within an **Agile/Scrum** framework.
- Supported customer implementations by configuring systems and assisting with **technical guidance** during integration phases, ensuring smooth deployment.
- Analyzed **DevExpress tool** performance metrics and assisted in optimizing their integration within the core application framework.

SKILLS

Development – .NET, C#, Java, Spring Boot, REST APIs, Python, Flask, FastAPI, R

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Support & Monitoring – Splunk, Dynatrace, Incident Response, SLA Management

Development Tools – Git, Jenkins, Jira, Confluence, DevExpress

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

PROJECTS

Enterprise Application Support Framework (HCL Technologies)

- Engineered automated **Python scripts** to parse and analyze application logs from **Splunk** and **CloudWatch**, enabling faster root cause analysis for P1/P2 incidents.
- Developed a **Java Spring Boot** microservice to aggregate operational metrics, presenting key performance indicators for a financial services dashboard to an 8-person operations team.
- Implemented robust error handling and retry mechanisms for **transaction monitoring** workflows, reducing data loss in message queues by approximately **0.5%**.

Customer System Configuration Tool (MSc Applied Project)

- Designed and built a **.NET** application with a **SQL Server** backend to manage and automate customer system configurations, streamlining the deployment process for new clients.
- Created interactive dashboards in **Power BI** to visualize configuration success rates and identify common failure points for a pilot group of 5 customers.
- Developed comprehensive user guides and documentation for the configuration tool, facilitating faster adoption by the customer onboarding team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
