PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and executed comprehensive **manual and automated test plans** for AEM-based web applications, validating functionality and performance across multiple releases.
- Conducted **in-depth functional, regression, and integration testing** for new features on PlayStation.com, identifying and triaging over **150 defects** prior to deployment.
- Developed and maintained **automated test scripts** using **Java** and **Selenium WebDriver**, increasing test coverage by an estimated **40%** for core user flows.
- Configured and managed **CI/CD pipelines** with **Jenkins** and **Maven** to automate the execution of test suites, reducing the manual testing effort by **3 days per release cycle**.
- Collaborated with globally distributed engineering teams in an **agile environment**, participating in daily stand-ups, sprint planning, and retrospectives.
- Reviewed technical designs and **AEM components** with development architects to ensure testability and identify potential issues early in the development lifecycle.

SKILLS

Testing Frameworks – Selenium WebDriver, Applitools, Cucumber, Java

Web Technologies – AEM, HTML, CSS, JavaScript, AJAX, XML, REST APIs, Postman

CI/CD & Tools – Jenkins, Maven, Git, Jira, Confluence

Testing Methodologies – Functional Testing, Regression Testing, Integration Testing, Performance Testing, Security Testing, Test Automation

Cloud & Scripting – AWS, Python, Linux Shell Scripting

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, Power BI

PROJECTS

AEM Component Testing Framework (HCL Technologies)

- Engineered a reusable **Java-based testing framework** to validate AEM components, templates, and services layers for enterprise clients.
- Integrated **Selenium WebDriver** with custom locators and page object models to achieve consistent test execution across different environments, reducing script maintenance by **30%**.
- Developed a suite of **automated tests** for critical AEM features, covering content authoring workflows and published page rendering, ensuring adherence to design specifications.

Web Application Performance & Security Audit (HCL Technologies)

- Performed comprehensive **performance testing** on high-traffic web applications, identifying bottlenecks and recommending optimizations that improved load times by an average of **22%**.
- Executed **security testing** protocols, including vulnerability scans and API endpoint validation using **Postman**, to identify and report potential security risks.
- Documented findings and presented detailed reports to development and operations teams, facilitating the implementation of corrective actions to enhance application stability and user experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
