PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Executed comprehensive test plans for .NET RESTful services and multi-tier applications on Windows Server and IIS, contributing to the stability of a key financial services platform.
- Developed and executed test scenarios and cases derived from requirements and design documentation, ensuring alignment with business objectives for a regulated financial environment.
- Managed defect lifecycle using **Jira**, including raising, tracking, and re-testing resolved issues, facilitating timely resolution and improving software quality by approximately 15% on critical bug fixes.
- Supported the availability and readiness of test environments through smoke testing and environment validation, ensuring smooth execution of testing phases for the delivery teams.
- Collaborated with cross-functional teams, including business analysts and operations, to understand system functionalities and gather requirements for testing complex financial services platforms.
- Analyzed and interpreted complex SQL queries and database schemas to validate data integrity and support backend testing for interconnected enterprise systems.

SKILLS

Testing Methodologies – Test Scenario Creation, Test Case Execution, Smoke Testing, Defect Management, Regression Testing, API Testing, Environment Support

Tools & Platforms – Jira, SharePoint, MS Excel (Formulae), Windows Server, IIS, .NET, SQL Server, Postman, REST Assured

Programming & Scripting – SQL, Python, Java

Domain Experience – Financial Services, Wealth Management, Investment Services, Regulated Environments, Compliance Testing

Cloud & Infrastructure – AWS, EC2, S3, Lambda, Docker, Linux

Development Practices – CI/CD, Git, Agile/Scrum

PROJECTS

Financial Services Platform Testing and Validation (HCL Technologies)

- Developed and executed a detailed test strategy for a financial services operations dashboard, focusing on transaction monitoring and reconciliation workflows.
- Managed defect triage and resolution for a critical backend service, reducing the average time to resolve P1/P2 incidents by 18% through systematic analysis and re-testing.
- Validated backend API integrations using **Postman** against .NET RESTful services, ensuring data consistency across interconnected enterprise systems.

Enterprise Systems Integration Testing (HCL Technologies)

- Designed and executed integration test cases for ERP modules and other enterprise business systems, verifying data flow and functionality across **PostgreSQL** and **Oracle** databases.
- Performed smoke tests on multi-tier application deployments hosted on **Windows Server** and **IIS**, confirming system readiness for user acceptance testing.
- Coordinated UAT support and post-go-live issue resolution for system configuration changes, working closely with business analysts and operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
