## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collaborated with business stakeholders and engineers to gather and document detailed business requirements for IT product enhancements, translating them into clear specifications using **Jira**.
- Facilitated **Agile** ceremonies, including sprint planning and backlog grooming, ensuring alignment between business objectives and development team efforts.
- Analyzed user feedback data to identify areas for product improvement and propose iterative refinements to features and functionalities, contributing to a more user-centric design.
- Supported the delivery lead in coordinating cross-functional teams, including the data team and business stakeholders, to ensure seamless integration of new IT solutions.
- Mapped key business processes and workflows to identify inefficiencies and opportunities for optimization within existing IT systems, presenting findings to management.
- Contributed to the development and maintenance of **Agile** software development practices, specifically within the **Scrum** framework, for multiple project lifecycles.

## SKILLS

**Methodologies** – Agile, Scrum, Kanban, Business Process Mapping.

**Tools** – Jira, Confluence, Azure DevOps.

**Collaboration** – Cross-functional Teams, Stakeholder Management, Requirements Gathering, User Feedback Analysis.

**Technical** – SQL, Java Spring Boot, Python, AWS, REST APIs.

**Reporting & Analysis** – Power BI, Tableau, Data Analysis, Business Intelligence.

## PROJECTS

### Enterprise Systems Integration & Process Optimization (HCL Technologies)

- Mapped existing **ERP** integration workflows and identified bottlenecks in data exchange between financial systems and operational platforms.
- Developed **Python** scripts to automate data validation checks across **PostgreSQL** and **Oracle** databases, reducing manual effort by an estimated **15%**.
- Collaborated with business analysts to define new API specifications for cross-system data flows, improving reporting accuracy for key financial metrics.

### Customer Operations Dashboard Enhancement (HCL Technologies)

- Assisted in the analysis of requirements for a **payments operations dashboard**, focusing on improving transaction monitoring and alerting for failed messages.
- Created **Power BI** mockups and data models based on stakeholder feedback to visualize key operational KPIs and reconciliation workflows.
- Documented system changes and supported user acceptance testing (UAT) for enhancements to the operational reporting platform.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin**

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India**

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
