PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **CI/CD pipelines** using **GitHub Actions** and **Jenkins**, automating build, test, and deployment processes for Java Spring Boot applications, reducing manual deployment time by **40%**.
- Developed and maintained **Infrastructure as Code** for cloud environments on **Azure** using **Terraform**, enabling repeatable and consistent provisioning of resources such as VMs, networks, and storage.
- Managed **Kubernetes** cluster deployments and workflows, including the use of **Helm** charts for packaging and deploying applications, supporting a fleet of over **50 microservices**.
- Integrated **secure delivery practices** into pipelines, implementing **SSO** with Azure AD and configuring automated security scanning tools to identify vulnerabilities early in the development lifecycle.
- Collaborated with cross-functional teams of engineers, architects, and security partners to troubleshoot and resolve complex build, pipeline, and environment issues, improving overall system reliability.
- Authored and updated **operational documentation** and **runbooks** for platform services and deployment procedures, facilitating knowledge sharing and reducing incident resolution times by an average of **15%**.

SKILLS

CI/CD & Automation – GitHub Actions, Jenkins, Azure DevOps, TeamCity, JFrog Artifactory, Helm, GitHub

Cloud Infrastructure – Microsoft Azure, Azure Portal, Terraform, AWS (EC2, S3, Lambda, CloudWatch), Docker

Container Orchestration – Kubernetes

Programming & Scripting – Python, Java, Spring Boot, Bash Scripting

Databases & Data Storage – PostgreSQL, MySQL, Oracle

System Administration & Monitoring – Linux, Splunk, Dynatrace

Security & Compliance – SSO, Access Management, Security Scanning

PROJECTS

Cloud-Native CI/CD Platform Modernization (HCL Technologies)

- Engineered a new **CI/CD pipeline** framework on **Azure DevOps** to support microservices architecture, integrating automated testing and deployment stages.
- Implemented **Infrastructure as Code** using **Terraform** to manage development and staging environments on **Azure**, enabling rapid environment spin-up and tear-down for testing.
- Developed standardized deployment patterns using **Helm** for **Kubernetes**, ensuring consistent application deployments across multiple clusters and reducing configuration drift by **30%**.

Automated Production Environment Monitoring & Alerting (HCL Technologies)

- Developed **Python** scripts to parse logs from **Splunk** and trigger alerts for critical production issues, reducing manual log analysis time by **50%**.
- Configured **Dynatrace** alerts and dashboards to provide real-time visibility into application performance and resource utilization for a key financial-services client.
- Created automated data validation checks using **SQL** queries against **PostgreSQL** databases to ensure data integrity within the payments operations dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
