PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Constructed comprehensive **test automation scripts** using **Python** and **SQL** to validate complex product features, aligning with business requirements and functional specifications.
- Executed manual and automated functional, integration, and regression tests for enterprise applications, meticulously documenting software defects in **Jira** for proactive issue resolution with development teams.
- Developed and maintained automated and manual test script libraries, ensuring thorough coverage for functional, integration, and regression testing cycles across multiple application tiers.
- Analyzed and interpreted results of automation tests, identifying root causes of failures and collaborating with developers to implement timely fixes, reducing critical bugs by **~15%**.
- Participated actively in **Agile/Scrum** ceremonies, including daily standups, sprint planning, and retrospectives, contributing to a collaborative team environment and efficient product delivery.
- Supported production environments by monitoring application health via **Splunk** and **Dynatrace**, responding to P1/P2 incidents and managing service level agreements (SLAs).

SKILLS

Programming Languages – Python, Java, SQL, C#

Databases – PostgreSQL, MySQL, Oracle, Snowflake

Testing Tools & Frameworks – Selenium, Pytest, JUnit, Postman

Cloud Platforms – AWS, Microsoft Azure

CI/CD & Version Control – Jenkins, Git, Docker

Methodologies – Agile, Scrum, SDLC

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

PROJECTS

Automated QA Framework for Enterprise Systems

- Designed and implemented an automated testing framework using **Python** and **Selenium** to streamline QA processes for enterprise applications at HCL Technologies.
- Developed over 150 **automated test scripts** covering core functionalities, reducing manual testing effort by an estimated **40%** for regression cycles.
- Integrated the framework with **Jenkins** for continuous integration, enabling automated test execution upon code commits and providing rapid feedback on build stability.

Database Validation and Performance Analysis Tool

- Built a suite of **SQL scripts** and a **Python** application to validate data integrity and analyze performance across PostgreSQL and Oracle databases for financial services clients.
- Developed complex **SQL queries** for data reconciliation and anomaly detection, identifying discrepancies in transaction records and reducing data validation time by **~30%**.
- Contributed to database performance tuning by identifying slow queries and suggesting indexing strategies, improving average query response times by **18%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
