PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the BA responsible for the Operations Readiness workstream of new client launches, analyzing operational readiness for client-facing projects and participating in project calls.
- Liaised extensively with clients to establish exact requirements for global operating models, documenting workflows and facilitating workshops to gain internal and client agreement.
- Proactively identified and managed project risks related to client onboarding, ensuring stakeholders understood key risks and that mitigation steps were completed, contributing to a smoother UAT process.
- Assisted operations teams in the creation, maintenance, and execution of model office test plans for large conversions, coordinating activities with operational teams and providing clear status reporting.
- Improved the onboarding process by streamlining reports, documenting checklists, and formalizing procedures, which supported the creation of a comprehensive New Client Onboarding playbook.
- Functions as a subject matter expert on business processes and procedures, analyzing results of conversion processes and supporting operations teams in conversion reconciliations.

SKILLS

Core Competencies – Operations Readiness, Client Onboarding, UAT Management, Model Office Testing, Business Analysis, Risk Management, Process Improvement, Requirements Gathering, Stakeholder Management, Change Management, Quality Assurance

Financial Services Domain – Funds Industry Knowledge, Transfer Agency Operations, Operating Model Design, Payment Processing Workflows, Reconciliation Workflows, Transaction Monitoring

Technical Skills – SQL, Java Spring Boot, Python Scripting, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Project Management & Collaboration – Jira, Confluence, Agile/Scrum, Workshop Facilitation, Cross-functional Collaboration, Issue Tracking & Management

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, Operational Reporting, Data Validation

PROJECTS

Client Onboarding Playbook Development (HCL Technologies)

- Developed and maintained a comprehensive New Client Onboarding playbook for a financial-services client, detailing processes from sales through back-office implementation.
- Engineered Python scripts to automate the generation of standard reports for client onboarding status, reducing manual effort by approximately **30%** and ensuring timely delivery.
- Documented handoffs between global locations and designed model office strategies for conversions, contributing to a standardized and efficient client implementation process.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Contributed to the production support and enhancement of a payments operations dashboard for a financial-services client, focusing on transaction flow monitoring and alerting for failed payments.
- Wrote SQL queries across PostgreSQL and Oracle databases to validate transaction data and troubleshoot operational issues, ensuring data integrity for approximately **5,000** daily transactions.
- Collaborated with business analysts and operations teams to gather requirements for new monitoring features, supporting SLA management and operational alerting for critical payment messages.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
