PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Engineered **Python** scripts to automate data extraction and transformation for internal reporting, reducing manual effort by an estimated **15 hours** per week.
- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, handling approximately **800 requests** per minute during peak load.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict SLA parameters, leading to a **10% reduction** in critical ticket escalations.
- Designed and built interactive **Power BI** dashboards to visualize key operational metrics for business stakeholders, enabling quicker identification of performance bottlenecks.
- Optimized **SQL** queries across **PostgreSQL** and **Oracle** databases, improving data retrieval times for complex analytical reports by an average of **22%**.
- Implemented CI/CD pipelines using **Jenkins** and **Git** for automated build, testing, and deployment of Java applications, decreasing deployment cycle time by **30%**.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Enterprise Systems – ERP Support, Change Management, Production Support, Incident Response, Splunk, Dynatrace

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by developing new **Python** ETL processes to ingest and normalize transaction data from disparate sources.
- Implemented real-time alerting mechanisms using **SQL** and scripting to monitor failed payment messages, reducing manual oversight by **~30%** for the operations team.
- Collaborated with business analysts to gather requirements for new dashboard features, ensuring alignment with operational needs and audit trail integrity.

Automated Data Pipeline for ERP Integration (HCL Technologies)

- Developed an automated **Python** data pipeline to extract data from an **ERP** system and load it into a central reporting database, supporting reconciliation workflows.
- Wrote complex **SQL** scripts for data validation and transformation, ensuring data consistency across integrated systems and reducing data discrepancy issues by **18%**.
- Managed change control processes for system configuration updates, coordinating UAT and providing post-go-live support for the integrated data flow.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
