PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical support for **Java** and **.NET** trading applications, resolving P1/P2 incidents through **Splunk** and **Dynatrace** log analysis, meeting strict SLAs.
- Developed **Python** scripts to automate ETL processes and generate scheduled reports, reducing manual data processing time by approximately **30%** for the operations team.
- Enhanced **Spring Boot** REST APIs for a financial operations dashboard, supporting feature development and bug fixes within an Agile/Scrum framework.
- Managed incident response and change control for enterprise business systems, coordinating UAT and post-go-live support across interconnected platforms.
- Designed and implemented monitoring and alerting tools using **AWS CloudWatch** and **Linux** shell scripting to proactively identify system behaviour anomalies.
- Diagnosed and resolved complex application issues in distributed systems by analyzing system behaviour and correlating logs from various components.

SKILLS

Core Engineering – Java, Spring Boot, Python, .NET, REST APIs, Docker, Linux, Shell Scripting, Git, Jenkins, Jira, Confluence

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch)

Databases & Data Analysis – SQL, PostgreSQL, MySQL, Oracle, Power BI, Tableau, DAX, Power Query, Data Modelling, R, RStudio

Monitoring & Observability – Splunk, Dynatrace, ELK Stack

Automation & Scripting – Python, PowerShell

System Support & Operations – Production Support, Incident Response, Change Management, System Optimisation, Deployment

Financial Systems – Trading Systems, Payments Operations, Transaction Monitoring, Reconciliation Workflows

PROJECTS

Production Support Automation for Financial Services Dashboard

- Automated the deployment of new monitoring alerts for transaction processing workflows using **Python** and **Linux** cron jobs, reducing alert configuration time by **40%**.
- Developed diagnostic scripts in **Python** to quickly analyze common failure patterns in payment message processing, cutting average incident triage time by approximately **15 minutes**.
- Enhanced **Java Spring Boot** microservices for a financial dashboard to improve logging granularity, enabling faster root cause analysis of system behaviour and performance issues.

Data Analytics & Reporting for Enterprise Systems

- Built interactive **Power BI** dashboards to visualize key performance indicators from ERP and operational systems, consolidating data from **PostgreSQL** and **Oracle** databases.
- Created **Python** data pipelines using **pandas** to extract, transform, and load data for reporting, supporting a **7-person** business analysis team.
- Performed statistical analysis on system logs and transaction data using **R** to identify trends and potential areas for operational efficiency improvements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
