PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed daily settlements for Susquehanna's European entities, ensuring prompt matching and settlement of OTC, client, and exchange trades across **Equities, Bonds, and ETFs**.
- Developed and maintained relationships with Susquehanna's clients, delivering a high level of settlement service and proactively addressing trade settlement risks.
- Liaised with internal departments including **Securities Lending, Corporate Actions, and Trading Desks** to optimize settlement rates and enhance service for traders.
- Monitored and analyzed daily **buy-in notices** received from exchanges and direct market access providers, initiating investigations to mitigate costs.
- Compiled and analyzed monthly management reports detailing **trading volume, interest claims, buy-in notices**, and trade fails, providing insights into PnL impact.
- Implemented process improvements and automation opportunities within the settlements function, enhancing operational efficiency by re-engineering reconciliation workflows.

SKILLS

Settlements & Trading – Global Settlements, European Settlements, DTC Settlements, OTC Trades, Exchange Trades, Trade Matching, Securities Lending, Corporate Actions, Buy-in Notices, Position Management, Interest Claims

Financial Platforms & Tools – CTM, Traiana, SSI's, Prime Brokerage, Direct Market Access (DMA), Microsoft Office Suite, Excel

Programming & Data Analysis – SQL, Python, Excel Macros

Core Technologies – Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

PROJECTS

HCL Settlements Process Automation

- Automated the generation of monthly management reports for a financial services client using **Python scripting**, consolidating data from multiple sources and reducing manual compilation time by approximately 30%.
- Developed **SQL queries** against PostgreSQL and Oracle databases to validate transaction data and identify discrepancies in reconciliation workflows, improving data accuracy for operational reporting.
- Contributed to the development of a payments operations dashboard by implementing enhancements for transaction monitoring and operational alerting, supporting a financial services client's critical systems.

HCL Client Reconciliation Dashboard

- Designed and built interactive **Power BI dashboards** to visualize key settlement metrics, including trade volumes, settlement rates, and failed trades, for business stakeholders.
- Extracted, transformed, and loaded data using **Power Query** and DAX measures, creating a centralized reporting solution that improved visibility into settlement performance for an 8-person operations team.
- Collaborated with business analysts to gather requirements and refine dashboard features, ensuring alignment with client needs for operational oversight and decision support.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
