PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and maintained critical ICT application systems, ensuring high availability and performance for a large hospital network.
- Troubleshooted and resolved complex application issues, collaborating with internal teams and external suppliers to implement timely fixes and patches.
- Managed the configuration and testing of application updates and new features, coordinating User Acceptance Testing (UAT) with business stakeholders.
- Developed and executed Python scripts to automate routine data validation tasks and generate operational reports for the ICT Department, reducing manual effort by approximately 30%.
- Supported enterprise business systems, including ERP modules, by managing change control processes for system configuration updates and ensuring post-go-live stability.
- Provided production support for enterprise applications, responding to P1/P2 incidents and managing SLAs using tools like **Splunk** and **Dynatrace**.

SKILLS

Application Support – Issue Troubleshooting, Application Administration, Configuration Management, SLA Management, Incident Response

Technical Skills – Python, Java, SQL, Spring Boot, REST APIs, Linux Shell Scripting, Git

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases – PostgreSQL, MySQL, Oracle

BI & Reporting – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum, ITIL (Familiarity)

Tools – Jira, Confluence, Jenkins, Splunk, Dynatrace

PROJECTS

Hospital ICT Application Support System Enhancement

- Developed a Python-based application to centralize incident tracking and supplier communication, integrating with **Jira** and email notifications for improved ticket resolution times.
- Implemented automated data validation scripts using **SQL** and **Python** to cross-reference patient demographic data against admission records, reducing data discrepancies by **~15%**.
- Configured and tested a new module for the existing patient management system, working with clinical stakeholders to gather requirements and ensure seamless integration into their workflows.

Enterprise Business Systems Integration & Reporting

- Engineered data pipelines using **Python** and **SQL** to extract and transform data from legacy ERP systems into a PostgreSQL database for enhanced reporting.
- Designed and deployed interactive **Power BI** dashboards to visualize key operational metrics for ERP system usage and financial reconciliation workflows, providing insights to 8 stakeholders.
- Managed change requests and coordinated UAT for system configuration updates across interconnected enterprise platforms, ensuring adherence to change control procedures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
