PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed incident caseload for live hospital systems, restoring services by resolving ~45 critical incidents monthly and contributing to a **15% reduction** in P1 escalations.
- Developed **Python scripts** to automate data extraction and reporting for operational dashboards, reducing manual report generation time by approximately **8 hours per week**.
- Supported and enhanced existing **Java Spring Boot** services by implementing new features and resolving bugs, focusing on stability for enterprise users.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements for system enhancements and support UAT cycles.
- Maintained production environments with strict SLAs, ensuring **audit trails** and adherence to GDPR awareness for sensitive data processing.
- Participated in continuous service improvement plans, creating and updating **knowledge articles** for common incident resolutions and service requests.

SKILLS

IT Support & Operations – Incident Management, Service Request Management, Problem Management, Change Management, ITIL Framework, Knowledge Article Creation, Production Support, Service Restoration, Operational Alerting

Programming Languages – Python, Java, SQL, R

Databases & Data Management – PostgreSQL, MySQL, Oracle, Data Warehousing, Data Modelling, ETL, Power Query

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker

Development Tools & Methodologies – Spring Boot, REST APIs, Git, Jenkins, Jira, Confluence, Agile, Scrum, CI/CD

Business Intelligence & Analytics – Power BI, Tableau, DAX, RStudio, pandas, NumPy, scikit-learn

Healthcare IT – Hospital Systems Support, Enterprise User Productivity, Critical Project Delivery

PROJECTS

Healthcare Operations Dashboard Enhancement

- Developed a **Python ETL pipeline** to aggregate data from disparate hospital systems into a centralized data warehouse, supporting over **10,000 concurrent users**.
- Designed and implemented interactive **Power BI dashboards** to visualize key performance indicators for hospital operations, providing actionable insights that helped teams address bottlenecks.
- Collaborated with healthcare stakeholders to refine reporting requirements, ensuring the dashboards accurately reflected critical operational metrics and compliance data.

Automated Incident Triage System

- Built a **Python application** that ingested alerts from monitoring tools like **Splunk** and **Dynatrace**, automatically categorizing and prioritizing incidents for the support team.
- Integrated the system with Jira to create tickets, reducing manual ticket creation effort by an estimated **30%** and speeding up initial response times.
- Wrote comprehensive **Linux shell scripts** for system monitoring and log analysis, contributing to proactive identification of potential issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
