PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Owned end-to-end delivery and support for **financial services data products**, managing intake, production stability, and timeliness for critical reporting platforms.
- Served as the primary **Technical BSA for BAU and production data issues**, conducting root cause analysis and implementing remediation to prevent recurrence across **investment and trading data**.
- Partnered with business stakeholders to translate **financial domain business needs** into clear functional and technical specifications, including **data mappings and validation rules** for **capital markets data**.
- Collaborated with **data engineering and technology teams** to analyze existing data logic, review **SQL**, and validate implementations against business intent, ensuring alignment for **risk and operations data**.
- Proactively monitored and assessed **data quality** for **production data platforms**, identifying and driving resolution for issues before they impacted downstream consumers.
- Supported **Agile delivery** by contributing to backlog refinement, sprint planning, story breakdown, and defining acceptance criteria for new data features.

SKILLS

Financial Services Domain – Capital Markets, Investment Platforms, Trading Data, Risk Data, Operations Data, Regulatory Reporting

Business Analysis & Requirements – Functional Specifications, Technical Specifications, Data Mappings, Validation Rules, Backlog Refinement, Sprint Planning, Acceptance Criteria

Data Management & Quality – BAU Data Provisioning, Data Onboarding, Issue Investigation, Root Cause Analysis, Data Quality Assessment, Production Support

Technical Skills – SQL, PostgreSQL, Python, Java, Spring Boot, REST APIs, Linux, Git, Jenkins

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace, AWS

PROJECTS

Financial Data Platform Support and Enhancement (HCL Technologies)

- Managed end-to-end production support for a **payments operations dashboard**, ensuring stability and accuracy for transaction monitoring and operational alerting.
- Developed Python scripts to automate data extraction and reporting for reconciliation workflows, reducing manual effort by an estimated **20%**.
- Collaborated with business analysts and operations teams to refine requirements for new dashboard features, ensuring alignment with **financial services compliance** needs.

ERP System Integration and Data Flow Analysis (HCL Technologies)

- Supported and integrated with enterprise business systems, including **ERP modules**, by developing and maintaining **REST APIs** for cross-system data exchange.
- Performed database-level data validation and schema change management across **PostgreSQL and Oracle** databases for interconnected operational platforms.
- Coordinated change-control processes for system configuration updates and supported post-go-live triage across multiple interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
