## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the planning and coordination of precast concrete project delivery, ensuring adherence to production specifications and quality standards for a key client.
- Assisted with production process monitoring and optimisation, contributing to efficiency gains and ensuring compliance with company standards across multiple project lines.
- Collaborated with design teams to coordinate drawings and technical details, facilitating smooth integration between design specifications and on-site construction requirements.
- Monitored project progress against programme delivery timelines, identifying potential delays and contributing to timely resolution for a portfolio of construction projects.
- Participated in quality control processes and prepared technical reports, ensuring compliance with company standards and maintaining accurate project records.
- Promoted and maintained high standards of health and safety across project activities, contributing to a secure and compliant working environment for a team of 15 site personnel.

## SKILLS

---

**Engineering & Construction** – Structural Engineering, Precast Concrete, Construction Projects, Design Coordination, Site Operations, Quality Control, Health & Safety

**Project Management** – Project Planning, Coordination, Monitoring Progress, Delivery Timelines, Documentation, Technical Reports

**Software & Tools** – Microsoft Office Suite, CAD Software (Advantageous)

**Core Skills** – Analytical Skills, Problem-Solving, Communication Skills, Teamwork, Organisation, Detail-Oriented

**Data Analysis** – Numerical Skills, Data Modelling, Reporting, Power BI, Tableau, DAX, Power Query

**Programming & Automation** – Python, Java, SQL, Spring Boot, REST APIs, AWS, Linux, Git, Jenkins

## PROJECTS

---

### Precast Production Workflow Optimisation

- Analysed existing precast concrete production workflows, identifying bottlenecks and areas for process improvement.
- Developed Python scripts to automate data collection for production metrics, reducing manual reporting time by approximately 30%.
- Contributed to the implementation of enhanced quality control checks within the production line, leading to a 15% reduction in detected defects during final inspection.

### Construction Project Documentation and Reporting Tool

- Designed and implemented a system for tracking project progress and generating status reports using Microsoft Office Suite and basic scripting.
- Integrated data from various project phases, including design coordination and site operations, into a centralised reporting dashboard.
- Facilitated improved cross-functional communication by providing timely and accurate project documentation to commercial and operations teams.

## EDUCATION

---

**M.Sc. Data Analytics** — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science** — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
