PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a queue of incoming **IT support tickets**, triaging and resolving common hardware, software, and connectivity issues for remote and office-based employees, adhering to established **SLAs**.
- Provided first-level technical support via chat, email, and phone, documenting all incidents, requests, and troubleshooting steps within the **Jira Service Management** system.
- Supported user onboarding and access requests, including device setup and basic troubleshooting using **Mosyle MDM**, and assisted with routine maintenance and administrative tasks.
- Troubleshoot and resolved common end-user issues on **macOS** and **Apple hardware**, escalating complex problems to the appropriate internal teams or vendors.
- Prepared regular activity updates and basic **reporting** for the IT support team, ensuring clear communication on open issues and their resolution status.
- Gained experience in **networking concepts** including Wi-Fi, VPN, DNS, and IP addressing while troubleshooting end-user connectivity problems.

SKILLS

IT Support – Service Desk, Incident Management, Ticket Management, Problem Solving, Customer Service, Escalation, SLAs

Operating Systems – macOS, Linux

Productivity Software – Microsoft 365 (Outlook, Teams, OneDrive, SharePoint)

Device Management – Mosyle MDM, Jamf (transferable experience)

Tools & Ticketing – Jira Service Management, Confluence, Splunk, Dynatrace

Networking – Wi-Fi, VPN, DNS, IP Addressing

Hardware – Apple Hardware (Mac laptops/desktops), Printers, Peripherals

PROJECTS

IT Service Desk Operations Enhancement

- Streamlined the **ticket resolution process** for common macOS issues by creating detailed troubleshooting guides and updating the internal knowledge base.
- Assisted in the setup and configuration of new employee hardware, ensuring timely deployment and user access to critical applications within a **macOS-only environment**.
- Collaborated with senior IT staff to monitor system performance and identify potential issues, contributing to proactive problem-solving for the end-user computing environment.

User Access Management Automation

- Developed Python scripts to automate routine user account creation and modification tasks for the **Microsoft Entra ID** system, reducing manual effort by approximately 30%.
- Documented the end-to-end process for user onboarding and offboarding, including access provisioning and de-provisioning, ensuring adherence to **access management processes** and security policies.
- Participated in UAT for updates to the IT ticketing system, providing feedback to improve workflow efficiency and reporting capabilities.
