PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **shipping, receiving, and internal movement** of IT equipment across a **high-security data centre** campus, ensuring **full asset visibility** and operational continuity.
- Processed inbound and outbound deliveries, ensuring all **IT equipment** was **correctly logged, labelled, and stored** in line with established procedures and **chain-of-custody** requirements.
- Maintained accurate **stock control and inventory systems**, reconciling physical assets with system records through regular **cycle counts and audits**.
- Organised warehouse and storage areas to ensure **efficient, safe, and compliant stock management**, adhering strictly to **health & safety and security protocols**.
- Tracked and managed **asset lifecycle activities** including installations, relocations, returns (RMA), and decommissioning for critical IT hardware.
- Coordinated closely with **operations teams, security personnel, and logistics partners** to support daily data centre activities and maintain operational uptime.

SKILLS

Logistics & Warehousing – Shipping, Receiving, Internal Movement, Stock Control, Inventory Systems, Warehouse Organisation, Asset Tracking, Health & Safety Compliance

Data Centre Operations – IT Equipment Handling, Asset Lifecycle Management, Security Protocols, Operational Continuity, Access Control

Asset Management – Asset Logging, Labelling, Storage, Serial Number Tracking, Chain-of-Custody, Audits, Cycle Counts, RMA Processing

IT Support & Systems – Jira, Confluence, Linux, Shell Scripting, Cron Jobs, Jenkins, Git

Data Analysis & Reporting – Python Scripting, SQL, PostgreSQL, MySQL, Oracle, Power BI, Tableau, DAX, Power Query

PROJECTS

Data Centre Asset Management System Enhancement

- Developed Python scripts to automate the logging and labelling of incoming IT equipment, reducing manual data entry errors by an estimated **15%**.
- Designed and implemented a new inventory tracking workflow within Jira, integrating asset serial numbers and locations to improve **audit readiness**.
- Collaborated with the data centre operations team to define requirements for improved asset lifecycle tracking, including RMA and decommissioning processes.

Automated IT Equipment Inventory Reporting

- Built automated reporting pipelines using Python and SQL to generate weekly inventory summaries, consolidating data from multiple sources for **operational teams**.
- Created interactive **Power BI dashboards** to visualise stock levels, asset movement trends, and identify potential discrepancies for management review.
- Supported UAT and post-implementation triage for the new reporting system, ensuring accurate data presentation for stakeholders across IT and logistics.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
