PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Owned feature lifecycle from discovery through to release and measurement for multiple product squads, writing detailed **specs** and **acceptance criteria** that guided engineering execution.
- Translated customer needs and feedback into actionable product priorities, working closely with **engineering**, design, and go-to-market teams to ensure successful feature delivery.
- Analyzed product performance using key metrics like **funnels**, **churn signals**, and **usage patterns** to inform roadmap decisions and identify areas for improvement.
- Identified opportunities to apply **AI/ML** techniques to enhance product functionality and efficiency, contributing to data-informed product strategy.
- Developed and maintained **Python data pipelines** for ETL and scheduled reporting, supporting analytical requirements across various business systems.
- Managed change control processes for enterprise systems, coordinating UAT and providing post-go-live support for interconnected **Java Spring Boot** applications.

SKILLS

Product Management – Product Discovery, Feature Ownership, Backlog Prioritization, Customer Feedback Translation, Product Strategy, AI/ML Application

Technical Fluency – APIs, SQL, Technical Documentation Analysis, System Integrations

Data Analysis & AI/ML – Data Analysis, AI/ML Application, Funnel Analysis, Churn Signals, Usage Patterns, Machine Learning Fundamentals

Software Engineering & DevOps – Java Spring Boot, Python, REST APIs, SQL (PostgreSQL, MySQL, Oracle), CI/CD, Jenkins, Git, Docker, Linux

Business Systems & Operations – ERP Systems Support, Production Support, Incident Response, Change Management, Data Pipelines, ETL

PROJECTS

Customer-Facing API Integration Framework (HCL Technologies)

- Developed a reusable **API integration framework** in **Java Spring Boot** to streamline connectivity between enterprise systems and client platforms, reducing integration time by an average of **30%**.
- Authored comprehensive technical documentation and integration guides for the framework, enabling customer technical teams to independently implement solutions.
- Collaborated with business analysts to gather requirements for common integration patterns used by financial services clients, ensuring alignment with operational needs.

Automated Transaction Monitoring Dashboard (HCL Technologies)

- Built and deployed an **operational dashboard** using **Python** and **SQL** to monitor transaction flows and identify anomalies in near real-time, improving detection of failed payments by approximately **15%**.
- Designed and implemented **SQL queries** against PostgreSQL databases to extract and aggregate transaction data for analysis and visualization.
- Integrated automated alerting mechanisms into the dashboard, reducing manual triage effort for the operations team by roughly **20 hours** per week.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
