PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided primary technical liaison for complex customer inquiries, analysing **vulnerability scan results** and **system audits** to clarify issues for internal **Product Management** and **R&D** teams.
- Recreated intricate customer software issues within a dedicated lab environment, documenting reproduction steps and potential root causes to accelerate resolution by **engineering**.
- Developed and published clear, actionable **solution knowledge base articles** and internal documentation, reducing common inquiry response times for the support team by approximately **22%**.
- Managed the end-to-end lifecycle of technical support tickets, from initial analysis and replication to escalation and final resolution, ensuring adherence to service level objectives.
- Analyzed **log events** from diverse customer environments using advanced filtering and correlation techniques to identify patterns and pinpoint system vulnerabilities.
- Contributed to an **AI-augmented support model** by providing structured feedback on case resolutions and identifying opportunities for automated assistance with routine tasks.

SKILLS

Core Technologies – Nessus, Vulnerability Assessment, Cyber Risk Management, Information Security, Network Security

Operating Systems – Linux, Windows, MacOS

Networking – TCP/IP, Wireshark

Scripting & Programming – Python, Java, SQL, Bash

Cloud & Virtualization – AWS, Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle, MSSQL

Tools & Systems – Jira, Splunk, ElasticSearch, Zendesk

PROJECTS

Customer Environment Analysis & Remediation (HCL Technologies)

- Analyzed complex customer environments for a financial services client, focusing on **transaction monitoring** and **reconciliation workflows** to identify system bottlenecks.
- Developed Python scripts to automate the extraction and initial analysis of operational logs from production systems, reducing manual triage time by approximately **30%**.
- Collaborated with business analysts to document and clarify issues related to system integrations and data flows across **PostgreSQL** and **Oracle** databases.

Production System Monitoring & Alerting Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot**-based service to aggregate and display real-time operational metrics from enterprise applications, supporting an 8-person support team.
- Integrated with **Splunk** and **Dynatrace** to ingest critical performance data and configure alerts for P1/P2 incidents, improving incident detection speed.
- Implemented REST APIs for cross-service data exchange, ensuring seamless integration with existing reporting tools and facilitating faster root cause analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
