PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Determined net asset values and calculated fund performance for assigned clients, ensuring timely and accurate completion of daily accounting reports.
- Managed the cash and asset reconciliation process for complex transactions within assigned funds, escalating atypical items to senior management for review.
- Drafted and reviewed first drafts of fund performance reports for clients, ensuring adherence to BNY standard policies, procedures, and controls.
- Contributed to the achievement of team objectives by performing specialist review functions and driving service improvement plans to enhance operational efficiencies.
- Supervised the day-to-day operations of a small team of fund administrators, guiding them through daily, weekly, and monthly accounting and reporting tasks.
- Assisted in the planning, testing, and implementation of internal and client-driven projects, focusing on process enhancements and workflow improvements.

SKILLS

Accounting & Finance – ETF Fund Accounting, Net Asset Value (NAV) Calculation, Fund Performance Calculation, Expense Allocation, Cash Reconciliation, Asset Reconciliation, Transaction Monitoring, Reconciliation Workflows

Client Services & Reporting – Client Interaction, Reporting, Stakeholder Communication, Client Concerns Resolution, Service Improvement Plans, Operational Alerting

Project Management & Operations – Workflow Management, Process Enhancement, Team Supervision, Project Implementation, Change Management, Agile/Scrum Ceremonies

Core Technologies – Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Python Scripting, SQL (PostgreSQL, MySQL, Oracle)

Enterprise Systems – Jira, Confluence, Splunk, Dynatrace

PROJECTS

ETF Fund Operations Enhancement (HCL Technologies)

- Developed Python scripts to automate the aggregation and validation of daily transaction data for a financial-services client, reducing manual data entry by **30%**.
- Assisted in the reconciliation of complex account expenses for a key client's fund, ensuring proper allocation and adherence to regulatory guidelines.
- Contributed to the design of enhanced operational alerting for failed payment messages, integrating with Splunk to provide near real-time notifications to the operations team.

Client Reporting Dashboard Development (MSc Data Analytics)

- Designed and implemented interactive Power BI dashboards to visualize fund performance metrics and expense allocations for business stakeholders.
- Utilized Power Query for ETL processes to clean and transform large datasets, creating robust data models for reporting accuracy.
- Calculated key performance indicators (KPIs) using DAX measures, enabling clients to gain deeper insights into their fund's financial health.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
