PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the **Qualtrics platform**, ensuring optimal performance and utilization for enterprise-wide surveys and feedback collection across multiple business units.
- Designed and implemented **surveys** and data collection tools within **Qualtrics**, translating complex business requirements into effective data-gathering instruments for market research and customer insights.
- Analyzed **survey data** from multiple sources, generating comprehensive reports and interactive **dashboards** using **Power BI** and **Tableau** to identify key trends and actionable insights.
- Collaborated with cross-functional teams, including product management and operations, to understand business needs and deliver tailored **survey solutions** that informed strategic decision-making.
- Provided **training and support** to over 50 internal stakeholders on **Qualtrics platform** usage, best practices for survey design, and data interpretation, significantly improving platform adoption.
- Developed and implemented strategies to increase survey response rates, achieving an average uplift of **18%** through targeted communication and improved survey design, thereby enhancing data quality and integrity.

SKILLS

Survey Platforms – Qualtrics, SurveyMonkey

Data Analysis & Visualization – Power BI, Tableau, Excel, R, Python (pandas, NumPy, scikit-learn), DAX, Power Query

Methodology & Research – Survey Design, Data Collection, Statistical Analysis, Market Research, A/B Testing, Time-Series Analysis, Hypothesis Testing

Programming & Scripting – Python, SQL (PostgreSQL, MySQL, Oracle), R

Business Systems & Integrations – API Integrations, Web Technologies, ERP Systems, Change Management

Project Management & Communication – Project Management, Stakeholder Management, Presentation Skills, Team Collaboration, Adaptability

PROJECTS

Customer Feedback Analysis Platform (HCL Technologies)

- Developed an integrated data pipeline using **Python** and **SQL** to ingest and process customer feedback from multiple survey platforms, including Qualtrics, into a centralized data mart.
- Built interactive **Power BI dashboards** to visualize customer sentiment, identify recurring issues, and track key satisfaction metrics for product development teams, enabling data-informed feature prioritization.
- Performed statistical analysis on survey responses, identifying correlations between specific product features and customer satisfaction scores, providing actionable insights that guided product roadmap adjustments.

MSc Applied Data Analytics Capstone Project (NCI)

- Designed and executed a comprehensive market research survey using **Qualtrics** to understand consumer adoption trends for emerging technologies, collecting responses from over 800 participants.
- Analyzed the collected data using **R** for statistical modeling and **Python (pandas, scikit-learn)** for feature engineering, building a predictive model to identify key drivers of technology adoption.
- Presented findings and visualized key insights through a detailed report and a **Tableau** dashboard, demonstrating proficiency in translating complex data into clear, actionable recommendations for stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
