PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Handled escalated technical and application support requests for customers and vendors experiencing issues with integrations, acting as the primary point of contact for post-integration vendor problems.
- Performed basic troubleshooting of integration issues by becoming proficient in **Toast systems and tools** such as **Splunk** and **Postman**, reducing average resolution time by **15%**.
- Presented customers and vendors with continuous updates and solutions within service level agreements (SLAs) and documented support tickets accurately.
- Collected feedback from customers and vendors to drive continuous improvement across product and support areas, directly influencing the development of three new integration features.
- Managed relationships with new and existing partners and customers by assessing needs and responding effectively to resolve escalations quickly, achieving a **92% customer satisfaction** rating on resolved tickets.
- Collaborated with Senior API Integrations Experts to escalate complex issues, ensuring timely and efficient resolution for critical customer-facing problems.

SKILLS

Customer Support – Technical Support, API Support, Escalation Management, Troubleshooting, Vendor Management, Customer Relationship Management.

Technical Skills – Splunk, Postman, REST APIs, Integrations, System Analysis, Log Analysis, Shell Scripting.

Languages – English (Fluent), French (Bilingual).

Development Tools – Git, Jira, Confluence, Jenkins.

Databases – PostgreSQL, MySQL, Oracle.

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch).

Programming – Java, Python, Spring Boot.

PROJECTS

API Integration Support Platform (HCL Technologies)

- Developed and maintained a Python-based internal tool to streamline the diagnosis of common API integration failures for enterprise clients, reducing triage time by **20%**.
- Implemented automated data validation checks using **SQL** queries against **PostgreSQL** and **MySQL** databases to identify discrepancies in cross-system data flows.
- Documented troubleshooting guides and common resolution patterns for critical integration issues, which were adopted by the L1 support team, improving first-contact resolution by **12%**.

Customer Onboarding Workflow Automation (HCL Technologies)

- Engineered **Python** scripts to automate data extraction and reporting for new customer onboarding processes, cutting manual effort by approximately **10 hours per week**.
- Integrated with **REST APIs** to pull system status and configuration data, providing a unified view for customer success managers to track integration progress.
- Collaborated with business analysts to gather requirements and refine the automated reporting output, ensuring alignment with client expectations for integration status visibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
