PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards** for daily and weekly operational performance reporting, enhancing visibility for senior stakeholders and enabling timely identification of performance variance.
- Constructed complex **SQL query models** to extract and aggregate data from disparate sources, supporting the creation of robust resource plans and effective performance management within the operation.
- Automated data collation for effectiveness measures across Planning and Service Delivery using **Python scripting**, reducing manual effort by an estimated 15 hours per week for the MI team.
- Supported the creation and refinement of internal planning tools in **Excel**, including the implementation of **VBA** macros to streamline data manipulation and reporting processes.
- Provided **ad-hoc analysis** on performance variance and improvements to planned forecasts or schedules, directly supporting the operational teams' decision-making.
- Collaborated with operational teams to ensure reporting was well-defined, clearly communicated, and executed effectively, improving the presentation and relevance of agreed operational KPIs.

SKILLS

Reporting & BI – Power BI, Business Objects, DAX, Data Modelling, Data Warehousing, Tableau

Data Analysis & Querying – SQL, MSOL, PostgreSQL, MySQL, Oracle, Data Mining, R, RStudio, pandas, NumPy

Programming & Scripting – Python, Java, Spring Boot, VBA, REST APIs, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2/S3/Lambda/CloudWatch), Docker, Linux

Development Practices – Agile/Scrum, CI/CD, Jenkins, Git, Jira, Confluence

Domain Specific – Call Centre Operations, Workforce Management (WFM), Performance Management, KPI Reporting, Resource Planning, Operational Reporting

PROJECTS

Operational Performance Dashboard Development (HCL Technologies)

- Designed and implemented a suite of **Power BI dashboards** to visualize key operational metrics for a financial services client, including call queue performance, staffing adherence, and agent KPIs.
- Developed **SQL queries** to extract and transform data from transactional databases, ensuring data accuracy and completeness for reporting on reconciliation workflows and transaction monitoring.
- Collaborated with business analysts to gather requirements and refine reporting outputs, directly contributing to the improvement of operational efficiency and decision-making processes.

Automated Reporting Pipeline for ERP Systems (HCL Technologies)

- Engineered a **Python-based ETL pipeline** to extract data from various ERP modules and operational platforms, automating the generation of scheduled reports previously handled manually.
- Integrated the pipeline with **PostgreSQL and Oracle databases**, performing data validation and cleansing to ensure the integrity of information delivered to stakeholders.
- Refactored existing **Excel spreadsheets** by incorporating VBA scripts to automate data aggregation and formatting, reducing report generation time by approximately 40%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
