## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards** and reports, translating complex datasets into actionable insights for operational teams and senior stakeholders, improving tactical decision-making.
- Engineered **Python scripts** for data extraction, transformation, and loading (ETL) processes, automating report generation and reducing manual effort by an estimated 30% for recurring tasks.
- Wrote and optimized complex **SQL queries** across PostgreSQL and Oracle databases for data validation, ad-hoc analysis, and supporting the development of operational reporting structures.
- Contributed to the development of **Java Spring Boot** REST APIs for system integrations, implementing new features and resolving bugs within existing enterprise backend services.
- Managed production incident response and SLA adherence for enterprise applications, analysing logs in **Splunk** and **Dynatrace** to identify root causes and implement timely resolutions.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements for reporting enhancements and support user acceptance testing (UAT) for new system features.

## SKILLS

**BI & Reporting** – Power BI, Tableau, DAX, Power Query, Business Objects, Azure

**Data Analysis & SQL** – SQL, MSQL, PostgreSQL, MySQL, Oracle, Data Mining, Data Warehousing, ETL

**Programming & Scripting** – Python, Java, Spring Boot, REST APIs, VBA, R

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**System Support & Tools** – Linux, Splunk, Dynatrace, Jira, Confluence, Microsoft Excel, Microsoft PowerPoint

## PROJECTS

### Call Center Performance Analytics Dashboard

- Developed a comprehensive **Power BI dashboard** to visualize key performance indicators (KPIs) for call center operations, including call queue performance, staffing adherence, and agent metrics like AHT and Resolve Rate.
- Implemented data models and **DAX measures** to accurately aggregate and analyse historical and real-time operational data, supporting performance variance analysis and forecasting improvements.
- Collaborated with operational leads to refine reporting requirements, ensuring the dashboard provided clear, actionable insights to drive efficiency and improve planning effectiveness.

### Automated ETL Pipeline for Operational Reporting

- Designed and implemented an **automated ETL pipeline using Python** and SQL to extract data from multiple sources, including transaction logs and operational databases.
- Scheduled and monitored the pipeline using **Cron jobs** and **Linux shell scripts**, ensuring timely delivery of data for daily and weekly performance reports across ~15 distinct client sites.
- Performed data validation and cleansing within the pipeline, reducing data discrepancies in downstream reports by approximately 20% and enhancing data integrity.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
