PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Accelerated software delivery by integrating **GitHub Copilot** into team workflows, reducing code authoring time for common patterns by an estimated **15%**.
- Developed and deployed full-stack features for a **Cloud SaaS** platform using **Java Spring Boot** and **React**, contributing to rapid iteration cycles.
- Partnered with Product Managers to explore and prototype new feature concepts using **AI tooling**, translating initial ideas into demonstrable software components within **2-week sprints**.
- Engineered **Python scripts** to automate repetitive software engineering tasks within **CI/CD pipelines**, decreasing manual intervention for routine builds and deployments by approximately **20%**.
- Authored comprehensive unit tests and technical documentation for new code modules, ensuring maintainability and supporting the team's goal of faster PR turnaround.
- Managed production incidents and performed root cause analysis for enterprise applications, ensuring adherence to service level agreements in a **Linux** and **AWS** environment.

SKILLS

AI & Development Tools – GitHub Copilot, AI Coding Assistants, AI Agents, CI/CD Pipelines, Jenkins, Git

Backend Development – Java, Spring Boot, Node.js, .NET Core, C#, REST APIs

Frontend Development – React, Angular

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases & Data Handling – SQL, PostgreSQL, MySQL, Oracle, Python (Pandas, NumPy)

Methodologies & Practices – Agile, Scrum, Requirements Discovery, Rapid Prototyping, Automated Validation, Incident Response

PROJECTS

AI-Augmented Development Workflow (HCL Technologies)

- Developed a proof-of-concept integration for **GitHub Copilot** within the team's existing IDE and CI/CD setup, enabling developers to leverage AI for code generation and unit test creation.
- Built **Python automation scripts** to streamline the process of code review suggestions and documentation generation, reducing manual effort by an estimated **18%** for standard feature types.
- Collaborated with a small team of 4 engineers to refine prompts and best practices for AI coding assistants, leading to a measurable improvement in code quality and faster pull request merges.

Scalable SaaS Feature Development (HCL Technologies)

- Designed and implemented a new RESTful API endpoint using **Java Spring Boot** to support a critical feature for an enterprise customer, handling approximately **500 requests per minute**.
- Developed a React-based UI component for data visualization, integrating with backend services to display key operational metrics to business stakeholders.
- Managed database schema changes in **PostgreSQL** and performed data validation queries to ensure data integrity across interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
