PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed new features for cloud SaaS platforms using **Java** and **PostgreSQL** within an Agile/Scrum framework, contributing to a 15% increase in feature delivery velocity.
- Integrated **GitHub Copilot** into the CI/CD pipeline, automating code generation and testing for core platform services, reducing manual overhead by approximately 20% per sprint.
- Collaborated with Product Managers and Senior Engineers in discovery sessions, using AI tools to rapidly prototype and validate innovative ideas for infrastructure modernization.
- Engineered **Python** scripts to automate ETL processes and scheduled reporting for enterprise business systems, improving data accuracy for financial reporting by 98%.
- Designed and implemented **REST APIs** in **Java Spring Boot** for seamless integration between enterprise systems, enhancing data flow efficiency across interconnected platforms.
- Managed production incidents and SLA adherence for enterprise applications, analyzing logs with **Splunk** and **Dynatrace** to resolve P1/P2 issues within defined response times.

SKILLS

Backend Development – .NET Core, C#, Java, Node.js, Spring Boot, REST APIs

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Frontend Development – React, Angular

AI & Automation – GitHub Copilot, AI-augmented development, Coding Assistants, Python Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Unit Testing, Version Control

Domain Knowledge – Public Infrastructure Workflows, Government Agency Operations

PROJECTS

AI-Augmented Code Generation Platform (HCL Technologies)

- Developed a proof-of-concept for an AI-augmented development workflow using **Python** and **FastAPI**, integrating with a large language model to generate boilerplate code and unit tests.
- Built automated data pipelines to feed anonymized transaction data for analysis, improving the efficiency of internal reporting by 30% for operational metrics.
- Designed and implemented a system for rapid prototyping of new features, enabling faster validation of concepts with internal stakeholders before full development.

Cloud Platform Feature Development (HCL Technologies)

- Implemented new features for a cloud-based SaaS application using **Java** and **PostgreSQL**, focusing on scalability and maintainability within a sprint-based development cycle.
- Wrote comprehensive unit tests for all new code, increasing test coverage by 40% and reducing critical bugs found in UAT by 25%.
- Collaborated with a cross-functional team to define requirements and deliver features that supported operational workflows for financial services clients.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
