PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Defined and developed solutions to enforce least privilege access policies using **Python** and **Azure Identity and Access Management**, reducing unauthorized access attempts by **18%**.
- Implemented and managed access controls, including **Role-Based Access Control (RBAC)**, for cloud resources across **AWS** and **Azure** environments.
- Monitored and analyzed system performance using **Azure Operations Suite**, identifying and resolving performance bottlenecks that improved application response times by **22%**.
- Developed and maintained **CI/CD pipelines** for efficient software deployment using **Azure DevOps** and **Terraform**, cutting deployment lead time by **30%**.
- Established and maintained cloud **identity governance frameworks**, ensuring compliance with regulatory requirements and internal security standards.
- Collaborated with development teams to integrate security best practices into **cloud migration and modernization initiatives**, advising on **cloud security, reliability, and scalability**.

SKILLS

Cloud IAM – Azure Identity and Access Management, Entra ID, Entra Connect Sync, RBAC, SAML, OAuth, OIDC, Microsoft Graph API, Microsoft Graph PowerShell SDK, PIM, SSO, Cloud IAM Roles, Permissions, Policies, CIEM

Cloud Platforms – Azure, AWS

DevOps & CI/CD – Terraform, Jenkins, Git, Azure DevOps

Scripting & Programming – Python, Shell Scripting

Monitoring & Logging – Azure Operations Suite, Splunk, CloudWatch, Dynatrace

Infrastructure as Code – Terraform

Security Concepts – Least Privilege Access, Federation Technologies, Application Security Controls, PHI/PII Data Handling

PROJECTS

Cloud IAM Security Framework Implementation (HCL Technologies)

- Designed and implemented an **identity governance framework** for enterprise cloud applications, integrating **Entra ID** and **Azure RBAC** to enforce least privilege access.
- Developed **Python scripts** to automate access reviews and monitor user activity across **AWS and Azure**, identifying over **150** instances of excessive permissions.
- Configured **Terraform modules** to manage cloud infrastructure and enforce security guardrails, ensuring consistent IAM compliance across development and production environments.

Automated Cloud Resource Management with Python (HCL Technologies)

- Built a Python-based automation solution to manage cloud resources in **AWS and Azure**, focusing on cost optimization and access control.
- Created **REST API integrations** to dynamically provision and deprovision resources based on defined policies, reducing manual intervention by **~40%**.
- Implemented **shell scripts** for log aggregation and analysis from cloud environments, aiding in faster incident response and performance tuning.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
