PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling approximately **1,500 requests per minute** during peak operational hours.
- Authored **Python scripts** to automate data ingestion and ETL processes, reducing manual data preparation time by **30%** for scheduled reporting tasks.
- Managed production incidents for critical enterprise applications using **Splunk** and **Dynatrace**, contributing to the resolution of over **50 P1/P2 issues**.
- Implemented database schema changes and performed data validation across **PostgreSQL** and **MySQL** databases for new feature rollouts.
- Contributed to CI/CD pipeline development using **Jenkins** and **Git**, facilitating code reviews and streamlining deployment processes for a team of **8 engineers**.
- Supported and integrated enterprise business systems, including ERP modules, coordinating change control management and UAT for system configuration updates.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Linux

PROJECTS

Enterprise System Integration & Automation (HCL Technologies)

- Designed and implemented cross-system integrations using **Java Spring Boot** REST APIs, connecting ERP modules with operational platforms to improve data flow efficiency by an estimated **20%**.
- Developed **Python automation scripts** for data extraction and transformation from disparate sources, supporting scheduled operational reports and reducing manual effort by approximately **15 hours per week**.
- Managed production support activities, including log analysis on **Linux** and incident triage, for interconnected enterprise systems, ensuring adherence to strict operational SLAs.

Data Analytics & Dashboarding for Operational Insights (MSc Project)

- Developed interactive **Power BI dashboards** to visualize key performance indicators derived from complex datasets, enabling stakeholders to monitor operational trends more effectively.
- Performed data extraction, transformation, and loading (ETL) using **Power Query** and wrote advanced **DAX measures** for sophisticated data analysis and reporting.
- Conducted statistical analysis using **R** to identify patterns and correlations within operational data, informing strategic decision-making for a simulated business scenario.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
