PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **first and second-level ICT support** for University faculty, staff, and students, resolving an average of **15-20 customer requests** per day via the service desk.
- Troubleshoot and resolved **hardware and software issues** on workstations, including diagnosing **network connectivity problems** and performing system reinstalls.
- Executed **software installations and configurations** across a fleet of **~500 university-owned laptops**, ensuring compliance with IT policies and standard imaging.
- Managed IT asset inventory, including tracking **hardware serial numbers** and **software license assignments**, maintaining accuracy for over **2000 devices**.
- Responded to and resolved **IT incidents**, escalating complex issues to senior IT staff and documenting solutions in a knowledge base for future reference.
- Assisted with the deployment of new IT equipment and upgrades, coordinating with end-users to minimize disruption to their daily academic and administrative tasks.

SKILLS

Operating Systems – Linux, Windows

Hardware Support – Workstation Troubleshooting, Installation, Configuration

Software Support – Application Troubleshooting, Installation, General IT Support

Networking – Network Connectivity Troubleshooting

IT Service Management – Service Desk, Incident Management, Ticket Management, Knowledge Base Management

Tools – Jira, Confluence, Splunk, Dynatrace, Git, Jenkins, AWS (EC2, S3, Lambda, CloudWatch), Docker

PROJECTS

University IT Service Desk Enhancement

- Developed a **Python script** to automate the initial triage of incoming IT support tickets, categorizing issues based on keywords and pre-populating common troubleshooting steps, reducing average ticket handling time by **15%**.
- Created standardized **runbooks for common hardware failures** (e.g., hard drive replacement, RAM upgrades) and software issues (e.g., OS boot problems), improving resolution consistency for the support team.
- Documented the process for **new user account creation and onboarding**, including email setup and software access, which was adopted by the service desk team to streamline new faculty and student integration.

Desktop Software Deployment Automation

- Built **Python-based automation scripts** to deploy standard university software packages (e.g., Microsoft Office Suite, Adobe Creative Cloud) to a test group of **50 workstations**, reducing manual installation time by approximately **40%**.
- Configured **Jenkins pipelines** to manage and trigger these deployment scripts, integrating with a Git repository for version control and code reviews.
- Assisted in validating the successful installation and functionality of deployed software across diverse hardware configurations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
