PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Python**-based back-end applications for AI orchestration, integrating **multi-agent systems** using custom frameworks.
- Built and deployed **GenAI applications** with intuitive, accessible UIs, ensuring compliance with **GDPR** and **EU AI Act** guidelines.
- Applied **MLOps** practices to deploy and monitor machine learning models, managing their lifecycle through automated pipelines on **AWS SageMaker**.
- Collaborated with **data engineers** and **product managers** to deliver end-to-end AI solutions, translating business requirements into technical specifications.
- Designed and implemented **REST APIs** for integrating front-end components with AI back-end services, handling approximately **3,500 events per second** during peak loads.
- Mentored **junior team members** on **Python** development and AI best practices, facilitating knowledge sharing within the team.

SKILLS

AI & ML Frameworks – TensorFlow, PyTorch, Semantic Kernel, LangChain, scikit-learn

Backend Development – Python, Java, Spring Boot, Node.js, NestJS, Flask, FastAPI, .NET

Frontend Development – React, Angular, Vue.js, TypeScript, JavaScript, HTML, CSS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch, SageMaker), Azure ML

Databases & APIs – PostgreSQL, MySQL, Oracle, REST, GraphQL

MLOps & CI/CD – Jenkins, Git, Docker, Kubernetes, Jira, Confluence

Compliance & Security – GDPR, EU AI Act, Responsible AI, Prompt Engineering

PROJECTS

AI-Powered Document Analysis Service

- Developed a **Python** service leveraging **LangChain** to process and analyze large volumes of enterprise documents, extracting key information for compliance checks.
- Implemented an API endpoint using **FastAPI** to serve analysis results, achieving a p95 latency of under **200ms** for document summarization requests.
- Integrated with **AWS S3** for document storage and retrieval, managing object lifecycle policies for cost-efficiency and data retention.

Customer Support Chatbot with Generative AI

- Built a conversational AI agent using **Semantic Kernel** and a fine-tuned LLM to handle customer inquiries, reducing average response times by **30%**.
- Designed and implemented prompt engineering strategies to improve chatbot accuracy and relevance for common support queries, decreasing escalation rates by **15%**.
- Developed a basic **React**-based front-end interface for customer interaction, integrating with the chatbot's backend API via **GraphQL**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
