PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the development and implementation of **QA/QC plans** and procedures for construction projects, ensuring adherence to technical specifications.
- Supported site inspection and testing activities for construction materials and workmanship, documenting findings for compliance verification.
- Reviewed and interpreted **technical drawings** and project specifications to ensure all on-site activities met stringent quality standards and regulatory requirements.
- Maintained accurate quality documentation, including detailed **inspection reports** and test records, contributing to project auditability.
- Collaborated with site teams and subcontractors to identify and resolve quality issues, implementing corrective actions to prevent recurrence.
- Participated in root cause analysis for non-conformances and contributed to the development of **corrective action plans**, promoting continuous improvement.

SKILLS

Quality Management – QA/QC plans, Inspection, Testing, Documentation, Audits, Root Cause Analysis, Corrective Actions, ISO 9001.

Construction & Engineering – Data Centre Construction, Turnkey Solutions, Civil, Structural, Mechanical, Electrical, Commissioning, Site Teams, Subcontractors.

Software & Tools – MS Office Suite, Jira, Confluence, Splunk, Dynatrace, CloudWatch, Jenkins, Git.

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs.

Cloud & Infrastructure – AWS (EC2, S3, Lambda), Docker, Linux.

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn.

PROJECTS

Construction Site Quality Assurance Framework (HCL Technologies)

- Developed a standardized framework for site quality assurance, integrating best practices for material inspection and workmanship verification based on project specifications.
- Created comprehensive checklists and templates for recording inspection findings and test results, improving data consistency across multiple construction sites.
- Collaborated with site supervisors to implement the framework, providing initial training and support to ensure effective adoption and adherence to quality standards.

Production Environment Monitoring & Automation (HCL Technologies)

- Engineered Python scripts to automate data validation and ETL processes for a financial-services operations dashboard, handling approximately 3,000 transaction records daily.
- Enhanced monitoring capabilities using **Splunk and Dynatrace** to track system health and application performance, reducing P1 incident response times by 18%.
- Contributed to the development of **Java Spring Boot** microservices for real-time transaction flow monitoring within the payments operations dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
