PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards** and reports for construction project tracking, enhancing data visibility for project controls teams.
- Modeled, transformed, and cleansed data from diverse sources including **ERP systems** and **SQL databases** using **Power Query (M)** and **DAX**.
- Collaborated with **business stakeholders** to gather requirements, translating complex project needs into clear, actionable visual reports for decision-making.
- Assisted in the automation of recurring reporting processes, reducing manual effort for the project controls function by approximately **15%**.
- Supported data quality initiatives by validating reporting outputs for consistency and adherence to governance standards.
- Authored and maintained comprehensive **documentation** for dashboards, datasets, and reporting procedures to ensure knowledge transfer and process adherence.

SKILLS

BI Development – Power BI, DAX, Power Query (M), Data Modelling, Data Visualisation

Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Cleansing, Data Transformation

Reporting & Automation – Business Intelligence, Report Development, Automation Scripting, ETL

Project Management Tools – Jira, Confluence, Project Management Software (Generic)

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Programming & Scripting – Python, Java, Spring Boot, REST APIs

AI Integration – Power BI Copilot, Q&A;

PROJECTS

Construction Project Performance Dashboard (HCL Technologies)

- Developed an interactive **Power BI dashboard** to monitor key performance indicators for construction projects, integrating data from project management tools and SQL databases.
- Designed and implemented complex **DAX measures** to calculate project completion rates, budget variance, and resource allocation efficiency.
- Collaborated with internal operations teams to define reporting requirements and validate dashboard accuracy, supporting an **8-person** project controls team.

Automated Financial Reporting Pipeline (HCL Technologies)

- Engineered a **Python-based ETL pipeline** to extract, transform, and load data from multiple enterprise systems into a central data store for reporting.
- Automated the generation of weekly financial summary reports, reducing manual processing time by approximately **4 hours per week**.
- Ensured data integrity and consistency across reports by implementing validation checks and utilizing **SQL** for data manipulation and querying.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
