PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the full service lifecycle for gateway products, ensuring **operational resilience** and continuous improvement through proactive engagement with development teams.
- Implemented robust **logging, monitoring, and alerting** standards using **Splunk** and **Dynatrace** for proactive issue detection across critical systems.
- Developed and maintained **automation pipelines** for certificate renewal and traffic routing using **Ansible** and **XLR templates**, reducing manual effort by **~30%**.
- Supported CI/CD pipelines, facilitating software promotion and implementing operational gating mechanisms to ensure production readiness for deployments.
- Practiced sustainable incident response, leading **blameless postmortems** and optimizing **Mean Time to Recovery (MTTR)** for production issues.
- Collaborated with global teams across multiple time zones to drive initiatives for **PCI compliance** and **threat reduction**.

SKILLS

DevOps & SRE – Site Reliability Engineering (SRE), DevOps, Ansible, Jenkins, Groovy, shell scripting, Bitbucket, Git, XLR, Chef

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Linux

Networking & Security – NGINX, gRPC, mutual TLS, SSL handshake, SSH keys, encryption standards, load balancers (BIG-IP F5)

Protocols & Architectures – event-driven architectures, client-server relationships, network layers (L1–L7)

Identity & Access – Active Directory, SAML, LTPA, SSO, OAuth

Observability & ITSM – Splunk, Dynatrace, ITSM, incident management, certificate lifecycle management

Gateways & Payments – Gateway products, Payment domains, production readiness, operational resilience

PROJECTS

Gateway Product Production Readiness

- Ensured operational readiness for a suite of gateway products by embedding **availability, capacity, and self-healing** capabilities during the design and deployment phases.
- Developed automated scripts for **certificate renewal** and **compliance reporting**, significantly reducing manual intervention and potential errors in production environments.
- Worked closely with development teams to integrate **monitoring and alerting** standards, improving proactive issue detection and system health visibility.

Automated Incident Response and Compliance

- Designed and implemented a framework for automated incident response, focusing on **blameless postmortems** and metrics to optimize **MTTR**.
- Managed the lifecycle of security certificates and keys using **Ansible**, ensuring adherence to **PCI compliance** and secure access practices.
- Configured **Splunk** dashboards and alerts to monitor key performance indicators and security events for critical business systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
