PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts for automating data extraction and transformation tasks, reducing manual processing time by approximately **40%** for weekly operational reports.
- Developed and maintained **Java Spring Boot** REST APIs to support cross-system integrations, handling an average of **1,500** requests per day and ensuring seamless data exchange.
- Managed production support for enterprise applications, resolving P1/P2 incidents within defined SLAs and performing root cause analysis using tools like **Splunk** and **Dynatrace**.
- Configured and optimized **PostgreSQL** database queries and schemas for analytical reporting, contributing to a **30%** improvement in data retrieval times for key business metrics.
- Contributed to CI/CD pipelines using **Jenkins** and **Git** for automated builds and deployments, participating in code reviews and ensuring code quality standards.
- Provided technical support for enterprise business systems, coordinating change management processes and UAT for system configuration updates across interconnected platforms.

SKILLS

Core Engineering – Java, Spring Boot, Python, REST APIs, Docker, Linux, Shell Scripting

Data & Analytics – SQL, PostgreSQL, MySQL, Oracle, Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git

Observability & Monitoring – Splunk, Dynatrace

Enterprise Systems – ERP Integration, Change Management, Jira, Confluence

PROJECTS

Automated Data Pipeline for Operational Reporting

- Developed a **Python**-based data pipeline to automate the extraction, transformation, and loading (ETL) of operational data from multiple sources, including **PostgreSQL** and flat files.
- Engineered scheduled reporting jobs using **cron** on Linux to generate daily and weekly summaries, reducing manual report generation effort by approximately **60%** for the operations team.
- Implemented data validation checks within the pipeline to ensure data integrity and accuracy, processing over **50,000** records per batch run.

Interactive Financial Operations Dashboard

- Designed and built an interactive dashboard using **Power BI** to visualize key operational metrics for a financial services client, consolidating data from various transaction monitoring systems.
- Created complex **DAX** measures and data models to enable drill-down analysis on transaction flows, reconciliation status, and alerting for failed payment messages.
- Collaborated with business analysts to gather requirements and presented iterative dashboard designs to stakeholders, facilitating improved operational oversight and faster issue triage.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
