PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Python scripts** to automate data extraction and transformation for reporting, reducing manual effort by approximately **15 hours per week**.
- Managed production support for enterprise Java applications, focusing on **SLA adherence** and P1/P2 incident response across distributed systems.
- Implemented feature enhancements and bug fixes in **Java Spring Boot** microservices, contributing to the stability of backend systems.
- Designed and executed **SQL queries** for data validation and ad-hoc analysis, supporting operational teams in reconciling transaction flows.
- Contributed to CI/CD pipeline development using **Jenkins** and **Git**, improving code deployment frequency and reliability for development teams.
- Supported integration efforts with enterprise business systems, facilitating data exchange via **REST APIs** between core platforms.

SKILLS

Core Engineering – Java, Spring Boot, Python, REST APIs, Microservices, SQL, PostgreSQL, MySQL, Oracle, Linux, Shell Scripting, Git, Jenkins

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, ETL, Pandas, NumPy, R, RStudio

Operations & Monitoring – Splunk, Dynatrace, CloudWatch, Incident Response, SLA Management

Project Management & Tools – Jira, Confluence, Agile, Scrum, Change Management

PROJECTS

Enterprise Systems Integration Platform

- Developed a **Java Spring Boot** application to act as an intermediary for data exchange between an ERP system and a client-facing operational dashboard.
- Implemented robust error handling and logging mechanisms using **Splunk** for monitoring data flow integrity and identifying integration failures.
- Designed and managed database schemas in **PostgreSQL** to support the new integration layer, ensuring efficient data retrieval for downstream reporting.

Automated Reporting and Data Validation Tool

- Engineered a suite of **Python scripts** to automate the generation of weekly operational performance reports, consolidating data from multiple sources.
- Integrated **SQL** queries to perform data validation checks before report generation, flagging discrepancies and ensuring data accuracy for business stakeholders.
- Built a command-line interface for the tool, allowing non-technical users to trigger report generation and specify parameters via simple commands.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
